Projects / Open-Source

MERN INTEGRATION -

ReactJS, NodeJS, ExpressJS, MongoDB.

Developed a website for sharing startup business ideas, allowing users to explore and post their own ideas for starting a company. The platform also facilitates communication between users to collaborate and network, similar to LinkedIn. This project encourages entrepreneurial connections and idea sharing.

COLLEGEWAY -

ReactJS, Flask, MySQL, ML.

I contributed to a project that utilizes a content-based recommendation model to assist users in finding suitable colleges. My role focused on creating a responsive and user-friendly interface, ensuring seamless interaction with the recommendation system. The platform simplifies the college search process with personalized suggestions.

Personal Portfolio -
