PROFESSIONAL SUMMARY

- 2 Years and 7 Month Experience in AnyCode Technologies, Pune.
- Proficient in .Net Core, MVC, Web API, ADO.NET, C#, SQL Server, jQuery (Ajax), JavaScript, HTML, CSS, and Bootstrap.
- Strong in N-Tier architecture, SOLID principles, and stored procedure-driven development.
- Experienced in full lifecycle application development including design, coding, testing, deployment, and support.
- Experienced in developing robust, scalable ERP modules such as Master, Purchase, and Admin with reusable backend logic and optimized SQL queries.
- Hands-on with bug fixing, feature enhancements, and performance optimization in live environments.
- Familiar with Agile Scrum methodology and SDLC phases including requirement analysis, development, testing, deployment, and maintenance.
- Practical experience working on Institutional ERP systems with implementation and client-side customization.

WORK EXPERIENCE

Software Developer

Dec/2022 - Present

AnyCode Technologies, Pune

- Developed and maintained end-to-end modules for ERP-based web applications.
- Followed SOLID principles and clean architecture for building scalable and maintainable code.
- Collaborated with frontend and backend teams to integrate features and improve application performance.
- Participated in requirement analysis, daily stand-ups, sprint planning, and code reviews under Agile methodology.
- Provided application support and customized solutions for multiple clients based on domain-specific needs.
- Maintained coding standards by ensuring reusability, readability, and modularity across the solution.

PROJECTS

Project Name: Supply Chain Management System (SCM) – Multi-Client ERP Solution

Technologies: MVC, Web API, ADO.NET, C#, SQL Server 2014/2019, HTML, CSS, Bootstrap, JavaScript, jQuery, Ajax, N-Tier Architecture.

Description:

- Supply Chain Management System (SCM) is a web-based ERP solution developed for managing the inventory flow of manufacturing and wholesale businesses in the clothing industry. This application is designed and developed by AnyCode Technologies for multiple clients including garment manufacturers and wholesalers.

Responsibilities:

- End-to-end development and enhancement of Master, Purchase, and Admin modules.
- Provided support for multiple clients through configurable design.
- Implemented role-based access control (RBAC) for secure user access.
- Followed SOLID design principles to build loosely coupled and testable modules.
- Wrote and optimized SQL stored procedures and functions for all data operations.
- Involved in UI design, backend logic, and client communication for enhancements and bug fixes.
- Involved in knowledge sharing activities with team.

TECHNICAL SKILLS

- **Backend:** .NET Core, MVC, Web API, C#, ADO.NET, N-Tier Architecture, SOLID Principles
- **Frontend:** HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX
- **Database:** Microsoft SQL Server 2014/2019
- **Tools:** Visual Studio 2019/2022, SSMS, Postman, VS Code, Git, IIS, Agile (Scrum)
- **Others:** Microsoft Excel, PowerPoint, Word, Any Desk, Zoom

EDUCATION

Bachelor Of Science (Computer)

2020-2022

S.P.D.M Arts, Commerce and Science College, Shirpur
