Professional Summary

Results-driven **.NET Developer** with 2.5+ years of experience designing, developing, and maintaining scalable web applications using **.NET Core**, **ASP.NET MVC**, and **Web API**. Skilled in integrating secure RESTful services, implementing **SOLID principles**, and building modern frontends with **ReactJS**. Strong experience in **MS SQL Server**, and automated testing tools like **xUnit**. Known for delivering clean, testable code in Agile environments while mentoring juniors and optimizing backend systems.

Experience

Capgemini

Senior Software Engineer

April 2024 – November 2024

Hyderabad, Telangana

- Architected and developed enterprise-grade applications using **.NET Core**, **ASP.NET MVC**, **Entity Framework Core**, and **MS SQL Server**.
- Built scalable **RESTful APIs** and integrated them with **ReactJS**, enhancing user experience and response time by 30%.
- Enforced **SOLID principles** and design patterns for cleaner and testable architecture.
- Implemented JWT-based authentication, role-based access control, and secure data handling across services.
- Led code reviews, CI/CD pipelines in Azure DevOps, and mentored juniors on best practices.

Capgemini

Software Engineer

July 2022 – March 2024

Hyderabad, Telangana

- Developed robust backend systems using **ASP.NET Web API**, **Entity Framework Core**, and **LINQ** for high-performance APIs.
- Optimized SQL queries and stored procedures, reducing API response time by over 35%.
- Enabled secure user flows using OAuth 2.0, JWT, and token refresh strategies.
- Wrote automated tests using **xUnit** and integrated **Postman** collections for continuous testing.
- Collaborated in **Agile sprints**, maintained JIRA tickets, and contributed to sprint planning and code reviews.

Capgemini

Software Engineer Intern

March 2022 – June 2022

Remote

- Built APIs using **ASP.NET MVC** and integrated with SQL Server for data-driven operations.
- Documented API contracts with **Swagger**, improving team handoffs and integration.
- Collaborated with cross-functional teams in daily stand-ups and sprint retrospectives.

Bionic Engineers

Full Stack Web Development Intern

Sept 2021 – Oct 2021

Remote

- Developed a responsive web application using **HTML**, **CSS**, **JavaScript**, and integrated **RESTful APIs** for seamless backend communication.
- Built and optimized **database schemas** using **SQL**, ensuring efficient data retrieval and consistency.
- Worked in an **Agile environment** and contributed to sprint planning, daily stand-ups, and retrospective meetings.

Technical Skills

Languages: C#, JavaScript, HTML, CSS, SQL

Frameworks: .NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, LINQ

Frontend: ReactJS

Database: MS SQL Server

Cloud & DevOps: Familiar with Azure DevOps (Pipelines, Boards), Git, GitHub

Testing & Tools: xUnit, Postman, Swagger, JIRA

Practices: Agile (Scrum), SOLID principles, CI/CD, Code Reviews

Education

Geethanjali College of Engineering and Technology

B.E. in Electrical and Electronics Engineering'CGPA: 7.8 / 10

July 2018 – June 2022

Hyderabad, Telangana
