PROFESSIONAL SUMMARY

Full Stack Developer with 2.5+ years of hands-on experience designing and developing scalable web applications using .NET Core, Angular, SQL Server, and RESTful APIs. Proficient in Agile development, database optimization, and dynamic document generation. Known for writing clean, maintainable code and collaborating effectively with cross-functional teams.

EDUCATION

National Institute of Technology, Bhopal
Bachelor of Technology in Mechanical Engineering

Aug. 2019 - April 2023
CGPA - 8.25

SKILLS

Languages : C++, C#, JavaScript, TypeScript, HTML/CSS, SQL, JSON

Developer Tools : Visual Studio, VS Code, SSMS, Git, GitHub, Postman, IIS Express, TFS

Technologies/Frameworks : .Net, MVC, Angular, Sql Server, Rest APIs, Entity Framework, CI/CD, Microservices

Soft Skills : Problem-Solving, Team Collaboration, Communication Skills, Time Management, Critical Thinking

WORK EXPERIENCE

Atyati Technologies Pvt Ltd
Software Engineer (Onsite)

July 2023 - Present

- Developed and maintained a Loan Origination System (LOS) web application for Federal Bank using .NET, Angular, and SQL, ensuring seamless loan processing and enhanced user experience.
- Collaborated with cross-functional teams to implement new features, optimize performance, and resolve issues in a high-availability banking environment.

Atyati Technologies Pvt Ltd
Software Engineer Intern (Onsite)

Jan. 2023 - July 2023

- Developed a module using iTextSharp library to dynamically generate PDF documents by parsing and rendering JSON data into formatted templates.
- Automated PDF creation workflows to reduce manual documentation efforts and improve consistency in generated reports.

PROJECTS

Fed-Mithra

.Net, Angular, SQL, C#, JWT

- Developed a robust web application using .NET, Angular, and SQL to support and automate the complete loan process lifecycle.
- Implemented key modules covering customer onboarding, application processing, loan disbursement, and installment collection, ensuring faster turnaround and streamlined operations.

Distance Calculator

HTML, CSS, JavaScript, .Net, C#

- Built a utility tool to calculate the geographical distance between two locations using their latitude and longitude coordinates.
- Implemented the Haversine formula to compute accurate great-circle distances, suitable for mapping, travel, and logistics-based use cases.

PDF Generator

.Net, C#, iTextSharp, Json, SQL

- Developed a dynamic document generation tool using iTextSharp library to create customized PDF files by processing structured JSON input.
- Designed the system to parse JSON data and render it into well-formatted PDFs with custom layouts, tables, and conditional fields, reducing manual effort in document creation.

EXTRA-CURRICULAR ACTIVITIES

- Participated in organizing and managing college tech fests, including events like coding competitions, tech quizzes, and workshops, showcasing strong teamwork and event coordination skills.
- Awarded the MMVY Scholarship in recognition of academic excellence and merit performance.
