

Career Objective

I have 2.8 years of experience as a .NET Developer, with hands-on experience in developing, deploying, and maintaining scalable web applications and APIs using technologies such as C#, ASP.NET, .NET Core, SQL Server, Angular, Entity Framework, LINQ, and front-end frameworks like HTML, CSS, Bootstrap 5. I have an urge and inclination to learn new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

Professional Experience

E-Mech Solution Pvt. Ltd. | Software Engineer

Pune, India | Aug.2023 – Present

Prodapt Solution Pvt. Ltd. | Software Engineer

Bangalore , India | Dec. 2022 – Aug. 2023

- A passionate and results-driven .NET Developer with **2.8 years** of professional experience in designing, developing, and maintaining robust and scalable web applications using Microsoft technologies.
- Proficient in **ASP.NET MVC, .NET Core, Web API, and Entity Framework**, with solid hands-on experience in **C#** programming and full-stack application development.
- Possess strong frontend development skills using **HTML5, CSS3, Angular and Bootstrap 5**, to create responsive, user-friendly web interfaces.
- Adept in **RESTful API** development and integration, ensuring seamless communication between client and server components.
- Experienced in **SQL Server, MySQL, and MongoDB**, with the ability to write optimized SQL queries, stored procedures, views, and functions for efficient database operations.
- Well-versed in **Object-Oriented Programming (OOP)** concepts and best coding practices to deliver clean, maintainable, and scalable code.
- Worked on multiple domains including **fintech and e-commerce**, delivering feature-rich web applications with a focus on performance, security, and usability.
- Skilled in version control systems like **Git and GitHub**, ensuring effective collaboration in team environments.
- Actively involved in the **Agile** development process, including sprint planning, daily stand-ups, and retrospectives.
- Collaborated with cross-functional teams comprising designers, backend developers, QA engineers, and product owners to understand business requirements and deliver quality software on time.
- Capable of using **Postman and Swagger** UI for API testing and documentation.
- Contributed to the creation of technical documentation, including system requirements, design specifications, and user manuals.

Technical Skills

- **Programming Languages** : C#, ASP.NET MVC, .NET Core, .NET Core Web API
- **Frontend Technologies** :HTML, CSS, Bootstrap 5, Angular
- **Database** : SQL Server, MySQL, MongoDB
- **ORM & Frameworks** : Entity Framework
- **Web Services & Tools** : REST APIs, Postman, Swagger UI
- **Version Control** : Git, GitHub
- **Project Management** : JIRA
- **Operating Systems** : Windows, Linux

Project

1. Fintech Investment Platform :

The Fintech Investment Platform is a web-based application that empowers users to invest in a variety of financial assets, including stocks, cryptocurrencies, and mutual funds. The platform provides a user-friendly interface, real-time data, and secure transaction capabilities.

Roles and Responsibility:

- Developed and maintained scalable web applications using ASP.NET MVC and .NET Core Web API.
- Created dynamic and interactive frontends using Bootstrap, HTML, CSS
- Built and consumed RESTful APIs for seamless integration across client and server components.
- Designed and implemented database models, stored procedures, and queries in SQL Server and MySQL.
- Participated in Agile ceremonies, including daily stand-ups, sprint reviews, and retrospectives.
- Used Git and GitHub for version control, code reviews, and collaboration with team members.
- Conducted unit testing and API testing using Postman, and supported system and integration testing.
- Resolved bugs, optimized performance, and implemented security best practices.

Technologies Used:

ASP.NET MVC, .Net Core, C#, .net Core Web API, HTML, CSS, SQL Server, Angular, Azure

2. Online Market Platform (E-Commerce) :

The Online Marketplace Platform is a web-based application connecting buyers and sellers for secure, diverse, and user-friendly e-commerce transactions.

Roles and Responsibility:

- Develop and maintain scalable, high-performance web applications using .NET Core and ASP.NET MVC.
- Create and consume RESTful APIs for seamless integration with frontend applications and third-party services.
- Implement authentication and authorization using ASP.NET Identity and JWT tokens.
- Participate in daily stand-ups, sprint planning, and retrospectives in Agile development environments.
- Design database schemas and optimize SQL queries, indexes, and stored procedures for performance and scalability.
- Document application architecture, workflows, and APIs for internal and external teams
- Debug and troubleshoot code issues and production incidents, performing root cause analysis and implementing fixes.

Technologies Used:

ASP.NET MVC, .Net Core, C#, .net Core Web API, HTML, CSS, SQL Server, Bootstrap 5

Interest

- Swimming, Playing Cricket

Languages

- English, Hindi, Marathi

Qualification

- Bachelor of Engineering
Shivaji University
