

Shivam Vijay Padhye

.Net & Angular DEVELOPER – 3yr +EXP

☐ 9767997015 | ✉ shivampadhye.sp@gmail.com | ☐ Hingoli, Maharashtra, India | ☐ [LinkedIn](#)

Professional Summary:

- **.NET & Angular Developer** with **3+ years of experience** in full-stack web development using **Angular (v9 & 14 with Typescript)**, **.NET Core (6 & 8)**, **ASP.NET MVC**, and **SQL Server**.
- Strong hands-on expertise in **C#**, **.NET Framework**, and building applications using both **monolithic** and **microservices architectures** and Version control by **Git**.
- Skilled in creating and integrating **RDLC reports** for dynamic data-driven reporting and printing functionalities.
- Experienced in building **scalable REST APIs**, **Entity Framework**, **LINQ**, **Responsive UIs**, and implementing **secure authentication**.
- Delivered real-world applications in **healthcare** and **education** domain.
- Also had some knowledge of **Jenkins CI/CD** and **Azure Bobs Storage**.
- Strong in **collaborating with cross-functional teams**, understanding business needs, and delivering quality solutions on time.

Objective

Looking to join a team where I can keep growing as a developer, work on meaningful projects, and contribute to building great software.

Skills & Expertise:

Frontend	Angular 9 & 14, TypeScript, JavaScript, HTML, CSS, Bootstrap, jQuery
Backend	.NET Core, C#, ASP.NET MVC, RESTful API
Database	MS SQL Server
Tools & Platforms	Visual Studio, VS Code, Git, Postman, Jenkins, MSSQL Server, Mantis, SVN
Other	RDLC Reports

Work Experience

Software Engineer

Sapphire Software Solutions, Ahmedabad

Duration: 15th March 2022 – 30th May 2025 (3 Year +)

Domain: Healthcare & Education

Technologies: .NET Core, Angular, MS SQL Server, RDLC Reports

Projects

1. **Project Title:** OccuCare — Employee Healthcare & Safety Management System

Position: Software Engineer

Company: Sapphire Software Solutions

Technologies: Angular, .NET Core, ASP .Net MVC, MS SQL Server, RDLC Reports

Domain: Healthcare

Duration: June 2022 – May 2025

Description:

OccuCare helps large enterprises manage employee health and safety across various branches. The system includes centralized medical records, automated reminders for health assessments, and role-based user access.

Key Responsibilities:

- Expertise in building scalable APIs, enhancing UI/UX.
- Built scalable REST APIs and dynamic menus with role-based access.
- Developed and optimized REST APIs for data handling.
- Improved system speed by resolving backend bottlenecks.
- Applied security patches to meet compliance standards.

2. Project Title: Vidyalaya School ERP — School Management System (Migration Project)

Position: Software Trainee

Company: Sapphire Software Solutions

Duration: March 2022 - May 2022

Domain: Education

Technologies: Angular

Description:

Vidyalaya ERP is a complete school management solution covering student information, attendance, exams, and staff management with features like biometric integration and mobile app support.

Key Responsibilities:

- Migrated key modules like Student Info & Library to newer tech stack.
- Refactored UI for better navigation and user experience.

Education

Course / Degree	University / College	Year of Passing (Month & Year)
Master of Computer Applications (MCA)	MGM's Jawaharlal Nehru College of Engineering, Aurangabad (BAMU)	2019- 2022
Bachelor of Computer Applications (BCA)	New Model Degree College, Hingoli (SRTMUN)	2016- 2019

Awards & Languages

- **Star Employee of the Quarter** – Dec 2023
- **Languages:** English, Hindi, Marathi, Gujarati
