

Trupti Muley

Software Engineer

PROFILE

An experienced Java developer with 3 years of experience participating in all aspects of the software development life cycle, which includes estimating technical design, implementation, documentation, testing and support of applications developed for various clients.

I am dedicated to learning better ways to write clean, efficient code while keeping up with the newest tech stacks. Searching for my next Java developer role that will leverage my expertise in creativity, analytics and problem-solving while providing opportunities to grow and enhance my technical abilities.
