PROFESSIONAL EXPERIENCE

Full Stack Developer

The Innovation Lab

- Worked on Customer Relationship Management (CRM) software is designed to streamline and enhance customer interactions, improve sales processes, and foster customer satisfaction. Utilizing cutting-edge web technologies such as HTML, CSS, JavaScript, and MySQL, our CRM system is both robust and user-friendly.

Front End Web Developer

Science and Tech Co.

- I did one-month internship that was on front-end web design with the objective of getting practical experience that involves the process of interpreting and transforming design concepts into responsive and aesthetically pleasing web designs through HTML and CSS.
 - Contributed to the development of interchange elements, animation using JavaScript libraries and fronts as well.
 - Proven to be highly accomplished in troubleshooting and analytical skills as well as easily recognizing and resolving front-end glitches and problems.
 - I solicited insights from mentors and peers in the field through open conversations which was crucial in mastering front-end development. I learnt how to develop these skills and put them into practice.
