📍 Pune, Maharashtra-412307

👤 PROFILE SUMMARY

Results-driven Software Developer with 7 months of hands-on experience in backend development using ASP.NET Core, C#, Web APIs, and SQL Server. Skilled in object-oriented programming (OOP), problem-solving, debugging, and code optimization. Proficient in developing scalable applications and deploying solutions to UAT environments. Familiar with SQL and PostgreSQL databases. Adept at performance tuning, software design, and application architecture. Strong communication and collaboration skills with a proven ability to resolve complex technical issues efficiently

🎓 EDUCATION

PDEA College Of Engineering Pune - Pune
Bachelor Of Engineering- Information Technology

07/2020 - 04/2024
CGPA-8.71

⚙️ TECHNICAL SKILLS

Programming Languages: •HTML •CSS •JavaScript •C# •OOPs

Web Development & Framework: •ASP.NET Core Web API •.Net Core MVC •Entity Framework Core •LINQ

Backend and Database: •SQL Server •PostgreSQL

Development Environment: •VS Code •GIT

Additional Skills:

- Proficient in OOPs, Problem Solving, and Debugging Skill
- Skilled in development, Designing and developing high-quality software systems
- Experienced in code Optimization and Performance Effective Communication and Collaboration skills
- Software Design & Development

💼 WORK EXPERIENCE

🏢 **BlueBenz Digitization Pvt Ltd**

10/2024 - 05/2025

- **Associate Software Product Analyst**

- Developed and Maintained Applications Assisted in the Design, Development, Maintenance of Web and Android Applications using C#, .NET framework.
- Actively participated in code reviews, ensuring adherence to best practices and improving overall code quality.
- Working with Responsibilities like Requirement Analysis, Design, Development, Deployment, Performance Improvement and Collaborated with Team Members to Resolve software issues.
- Applied critical thinking to debug and resolve complex technical issues in a fast-paced environment.
- Engaged with cross-functional teams and clients to gather requirements and translate them into technical specifications.
- Worked on application maintenance.

🏢 **U & B IT Consultancy Pvt Ltd**

04/2024 - 09/2024

- **Software Developer Intern**

- * Assisted in the development and maintenance of web applications using ASP.NET Core and C#.
- * Designed and implemented RESTful APIs using ASP.NET Core Web API for seamless backend communication.
- * Worked with SQL Server and PostgreSQL databases to write optimized queries, stored procedures, and views.
- * Collaborated with senior developers to analyze client requirements and translate them into technical solutions.
- * Participated in debugging, testing, and resolving software bugs to ensure smooth functionality and user experience.
- * Utilized Git for version control and collaborated with the team using tools like GitHub and Azure DevOps.
- * Attended regular stand-up meetings and code reviews to align with Agile development practices.

TARA -

09/2024 - 04/2025

- Developed a Task Management Application enabling users to Create, Assign, and Track personal and team tasks.
- Integrated features like Auto-Categorization, Dynamic Scheduling using .Net Quartz, and Real-time Notifications using firebase for enhanced productivity.
- Built the backend using .NET Core Web APIs to ensure scalability, security, and high performance.
- Implemented a streamlined task delegation system, promoting effective collaboration across teams and individuals.
- Utilized PostgreSQL for robust and structured data storage and efficient task tracking.
- Integrated push notifications to improve task tracking and user engagement.
- Enabled real-time progress monitoring and reminders, improving overall task completion rates.
- **Tools and Technologies Used:** C#, ASP.NET Core Web API, PostgreSQL, Git, Visual Studio Code

ASSET MANAGEMENT SYSTEM -

11/2024 - 01/2025

- Built a web-based Asset Management System using .NET Core Web API for centralized asset tracking and delivery management.
- Developed RESTful APIs for asset assignment, retrieval, and lifecycle monitoring, enabling seamless integration with frontend modules.
- Integrated unique asset code generation to track individual assets and streamline delivery updates.
- Implemented secure authentication and authorization using JWT/OAuth to ensure role-based access control.
- Designed database schema and optimized SQL queries in PostgreSQL to handle asset inventory, status updates, and history logs.
- Enabled CRUD operations for managing asset records, delivery tracking, and user-defined status updates.
- Integrated CRUD operations for asset tracking, assignment, and life cycle management.
- **Tools and Technologies Used:** C#, ASP.NET Core Web API, PostgreSQL, Git, Visual Studio Code

ROLE/ RESPONSIBILITIES

- Designed and developed scalable web applications and APIs using ASP.NET Core, C#, and SQL Server/PostgreSQL.
- Strong Problem Solving and Analytical Skill.
- Debugging and Development skill.
- Improved performance tuning, code optimization, and applied best coding practices to improve system efficiency.
- Teamwork and Management Abilities.
- Excellent Communication and Collaboration Skill

EXTRACURRICULAR ACTIVITIES

- **President in Coding Club** - 06/2022- 5/2023
- **NSS Co-Ordinator** - 03/2023 - 09/2023

DECLARATION

I hereby declare that the information furnished above is true to the best of my Knowledgeable.
