E-mail

renu9033@gmail.com

Date of birth

16 June 1989

Skills

C#.net

ASP.net

VB.net

SQL Server 2008

Entity Framework

WPF

WCF

Unit Testing

Web API

ASP.NET Core

I am a dedicated DOT NET Developer with strong expertise in ASP.NET, C#, and SQL Server. I thrive on improving software efficiency and user experience while collaborating effectively within teams. My experience includes significant achievements in enhancing data processing and integrity, and I'm keen to leverage my skills in growth-oriented organizations

Experience

Software Developer

Chartered Information Systems Pvt Ltd. / 06/2015 - 04/2017

- Developed and maintained modules for GST using MVVM and Entity framework, enhancing data processing efficiency by **30%** through streamlined UI and backend logic.
- Designed and implemented web UI for GST software using **WPF**, improving user interaction and reducing task completion time by **25%**.
- Engineered robust database solutions using **SQL Server 2008**, including stored procedures and relational schemas, which supported **100% uptime** during critical filing periods.
- Created and validated ITR forms using **Crystal Reports**, boosting report accuracy by **15%** through automation and real-time validation logic.
- Executed complete **SDLC phases**, including requirement gathering, coding, unit testing, and deployment for income tax software and XBRL applications.

Software Developer

Fendahl Technologies Pvt Ltd. / 09/2019 - 03/2020

- Developed business logic modules for Fusion CTRM i.e. Commodity Trading and Risk Management using **WCF**, **C#**, and **Entity Framework**, contributing to a **20% increase** in transaction processing speed.
- Enhanced data integrity by implementing optimized **stored procedures** and database routines in **SQL Server**, reducing query response time by **35%**.
- Participated in agile sprints and daily stand-ups, collaborating with product managers and QA teams to meet sprint goals and resolve **critical bugs** within **24 hours**.
- Ensured high code quality by adhering to **unit testing** practices, resulting in **zero major defects**.
- Collaborated On version control systems such as SVN by transferring services to Client and QA teams.

Education

B.Sc in Computer Science

Nagpur University / 07/2008 - 07/2011
Nagpur

Masters in Computer Applications

Nagpur University / 07/2011 - 07/2014
Nagpur
