Work Experience

MindZillion Pvt Ltd

.NET Developer

Dec 2023 - June 2025

- Develop and maintain web and mobile applications using **ASP.NET Core ,BLAZER** technologies.
- Work on both **back-end** (API development, database management) and **front-end** (HTML, CSS, JavaScript, Blazor) to build a cohesive solution.
- Design, optimize, and manage **SQL Server** databases, including stored procedures with cross-functional teams to integrate new features and enhance application.
- Solid understanding of relational database ORM frameworks (Entity Framework,Dapper)
- Troubleshoot and resolve technical issues across both back-end and front-end components.
- Ensure security, scalability, and efficiency in application architecture and development.
- Maintain and improve code quality, documentation, and development best practices.
- Integrated **SonarQube** into CI/CD pipeline to enforce coding standards and detect code smells and vulnerabilities.
- Used **SonarLint** in Visual Studio to catch issues during development and ensure high code quality.

Alpha MD

.NET Developer(Internship)

Aug 2023 - Dec 2023

- Develop and maintain web and mobile applications using **ASP.NET Core & MVC ,BLAZER** technologies.
- Work on both **back-end** (API development, database management) and **front-end** (HTML, CSS, JavaScript, Blazor) to build a cohesive solution.
- Design, optimize, and manage **SQL Server** databases, including stored procedures with cross-functional teams to integrate new features and enhance application.
- Solid understanding of relational database ORM frameworks (Entity Framework,Dapper)
- Troubleshoot and resolve technical issues across both back-end and front-end components.
- Ensure security, scalability, and efficiency in application architecture and development.
- Maintain and improve code quality, documentation, and development best practices.

Educations

Diploma in Advance Computing

Information Technology - 6.8

2023

Bachelor of Engineering

Aug 2018 - Aug 2021

Projects

MindZillion Health

Dec 2023 - Present

Blended care is transforming healthcare by integrating traditional and digital solutions, empowering patients while ensuring effective illness management. Mind Zillion Health streamlines this experience by offering a unified platform for health data access via web, tablet, or mobile. With features like treatment tracking, screenings, video calls, chat, and online interventions, it simplifies care management. Patients, providers, and caregivers benefit from seamless communication and improved support, enhancing overall patient care through digital innovation.

Built Using : **ASP.NET CORE ,ASP.NET CORE MVC ,SQL Server , Blazer ,Azure** ensuring scalability and performance

Technical Skills

Programing Languages : C# ,Java ,JavaScript, TypeScript, CSS , HTML

Web Development : .NET Core, Blazer, Angular(Version 16), REST API, Entity Framework Core

Mobile Development : MAUI

Database : SQL Server

Tools : Visual Studio ,Visual studio code ,Git ,SQL Server Management Studio, TFS, Figma ,Azure, SonarLint and SonarQube

Certifications

ASP.NET Core 8

Angular

CDAC Certificate

ASP.NET Core Web API
