

Sameer Sikandar Khonde

Software Engineer

📞 7499417603 | ✉ sameerkhonde26@gmail.com

SUMMARY

Software Developer with 1.9+ years of experience in ASP.NET MVC, .NET Core, C#, ADO.NET, and SQL Server, specializing in web development, database management, and API integration. Skilled in JavaScript, jQuery, Bootstrap, and Agile methodologies, with a focus on performance optimization and mentoring.

TECHNICAL SKILLS

Web Technologies

HTML, CSS, Bootstrap, jQuery, AJAX, Angular, JavaScript, JSON

Backend Technologies

ADO.NET, WinForms, ASP.NET, ASP.NET MVC, .Net Core, Web API, Entity Framework (EF), LINQ

Programming Language

C#

Database

Microsoft SQL Server, My SQL

Development Tools

Microsoft Visual Studio, MS Visual Studio Code
Git, Git Hub

Soft Skills

Communication, Team Leadership, Team Collaboration

EXPERIENCE

Full Stack - Software Engineer

📅 08/2024 - Present

Landmark Techedge Pvt Ltd

Full Stack - Jr Software Engineer

📅 Jul 2023 - Jul 2024

Landmark Techedge Pvt Ltd

RESPONSIBILITIES

- Participated actively in the entire Software Development Life Cycle (SDLC), especially in development and testing phases, ensuring timely delivery aligned with client expectations.
- Applied Object-Oriented Programming (OOP) principles such as encapsulation, inheritance, polymorphism, and abstraction to develop modular and reusable components.
- Designed, developed, and maintained web applications using ASP.NET Web Forms, MVC, and C#.NET, integrating front-end and back-end systems efficiently.
- Handled authentication and authorization using Filters in MVC.
- Engineered application architecture using Model-View-Controller (MVC 4.0) pattern to achieve separation of concerns and scalable design.
- Designed and optimized database schemas, tables, stored procedures, functions, triggers, and indexes for high efficiency.
- Ensured data integrity and performance optimization by using proper indexing, query optimization, and normalization.
- Developed and maintained complex SQL queries, joins to support application needs.
- Worked with Entity Framework and LINQ to optimize database interactions.
- Designed and developed responsive, dynamic, and user-friendly web interfaces using HTML, CSS, Bootstrap, and JavaScript frameworks.
- Implemented AJAX-based asynchronous data loading for improved page responsiveness.
- Implemented client-side validations using JavaScript/jQuery and Data Annotations.
- Integrated third-party APIs and external services to extend application functionality.
- Collaborated with cross-functional teams, including UI/UX designers, QA engineers, and product owners. Worked in Agile/Scrum environments, participating in daily stand-ups, sprint planning, and sprint.
- Provided technical leadership and mentoring for junior developers, sharing best practices on OOP, SDLC methodologies, and Microsoft technologies.

PROJECTS

Royal Vivah

Role : Team Lead

Technology : C#, ASP.Net MVC, HTML, CSS, Bootstrap, jQuery, JSON, JavaScript, AJAX, MS SQL Server.

- Matrimony Portal is an online matchmaking platform that connects individuals based on preferences and compatibility.
 - Key features include basic and advanced search options, invitation management, success stories, and subscription-based services through a payment gateway.
 - Vendor Services module offers additional services like photography, mehndi, catering, and decoration for wedding planning.
 - Admin functionalities include managing user profiles, vendor details, subscriptions, payment records, and FAQs.
-

BizPlus Quick Mart

Role : Team Member

Technology : C#, ASP.Net MVC, HTML, CSS, Bootstrap, jQuery, JSON, JavaScript, AJAX, MS SQL Server.

- E-Commerce platform designed to handle online product selling, user management, order processing, and delivery tracking across multiple roles.
 - Admin module manages users, products, orders, payments, seller approvals, and generates sales reports.
