

AAKASH CHANDRAKANT MULIK

Mob:7020808639

Email:aakashmulik3028@gmail.com

Profile summary:

Aspiring .NET Developer with 1 year of hands-on experience in developing web applications using ASP.NET, C#, and SQL Server, MVC. Seeking a challenging position to apply and enhance my technical and problem-solving skills in a growth-oriented organization.

Technical Skills

- **Languages:** C#, SQL, JavaScript, HTML, CSS
- **Frameworks:** ASP.NET MVC, .NET Core (Basic), Bootstrap
- **Database:** SQL Server, MySQL
- **ORM:** Entity Framework, ADO.NET
- **Tools/IDE:** Visual Studio, SSMS, Git
- **Other Skills:** LINQ, Stored Procedures, REST APIs.

Professional Summary:

- Designing, developing, and maintaining web applications using **ASP.NET MVC/Web Forms**.
- Writing clean, scalable, and reusable code using **C# and .NET Framework/.NET Core**.
- Developing **RESTful APIs** for communication between front-end and back-end systems.
- Creating and maintaining **SQL Server** database objects like tables, stored procedures, and views.
- Implementing **Entity Framework (EF)** or ADO.NET for database access and ORM functionality.
- Performing **unit testing**, debugging, and troubleshooting code for performance optimization.
- Designing user interfaces using **HTML, CSS, JavaScript, and Bootstrap**.
- Integrating third-party APIs, payment gateways, and web services (SOAP/REST).
- Participating in **code reviews**, and following best practices and coding standards.
- Working in **Agile/Scrum development environments**, attending daily stand-ups and sprint reviews.
- Deploying applications to **IIS** and handling environment configuration (Dev/UAT/Prod).
- Writing **LINQ** queries for efficient and readable data manipulation.
- Managing **authentication and authorization** using Identity Framework or custom logic.
- Using **version control systems** like Git for code management and team collaboration.

Professional Experience

Anutham Technology

Jun 2024-Jun 2025

Duration: **1 Year**

Key Responsibilities:

- Developed modules for internal web applications using ASP.NET MVC and C#.
- Wrote backend business logic and data access layers using Entity Framework.
- Designed database schemas, views, stored procedures in SQL Server.
- Integrated REST APIs and conducted unit testing.
- Participated in daily standups, sprint planning, and documentation.

Project Name: Loan Management Portal

Client: Bajaj Finance Ltd.

Description:

A web-based portal to manage customer loans including application tracking, EMI calculation, approval workflows, and disbursement reports.

Responsibilities:

- Created CRUD operations for loan applications using ASP.NET MVC and Entity Framework.
- Developed business logic for loan eligibility and EMI calculation.
- Created stored procedures for dynamic report generation.
- Handled validation, error handling, and form-level data binding.
- Worked closely with QA for bug fixing and deployment.

Tech Stack: ASP.NET MVC, C#, SQL Server, Bootstrap, Git

Education:

Bachelors Of Technology Electronics And Computer Science Engineering

2025

CGPA-7.0/10

Strengths

- Solid understanding of OOPS and MVC architecture
- Good problem-solving and debugging skills
- Adaptable and eager to learn new technologies

Declaration

I hereby declare that the above information is true to the best of my knowledge.
