Fullstack Developer at Jainam Software LLP, Pune with at 4 years of experience in PHP, Angular , MySql, ChartJs

Experience: Jainam Software LLP, Pune

(August 2020 – Present)

- **Project: Interactive Finance Dashboards (ChartJs , Angular , PHP , MySQL)**

- Designed and implemented dynamic charting components that provided users with real-time financial data visualization with ChartJs.
- Implementing frontend functionality and user interface using Angular.
- Handling backend operations and data management with PHP and MySQL.
- Developed responsive frontend features that enhanced user experience and accessibility.
- Optimized database queries and backend processes to improve dashboard performance and load times.
- Collaborated with technical teams and customers to gather requirements and deliver solutions that met business needs.

- **Project: Core LMS Calculations and Functionalities (PHP , MySQL)**

- Developed core logic for LMS (Loan Management System) calculation with a strong knowledge of accounting principles.
- Creating the new modules and bug fixing in the Current Environment.
- Developed core functionalities of LMS, including refund processes, ensuring accurate accounting practices were implemented.
- Studying client requirements and analysis
- Data Import/Export using PHP in excel, csv format.
- Debugging code for root cause analysis.
- Functional knowledge of Accounting and Banking
- Functionality unit testing
- Created reports utilizing optimized SQL queries to extract insights from large datasets efficiently.
- Implemented performance tuning techniques to enhance database query speed and overall system responsiveness.

- **Project: Core LMS & LOS API's (PHP, Postman, Swagger, JavaScript)**

- Developed API with core functionalities of LMS which creates Loans.
 - Payment Gateway API Integrated With Cashfree, Digio, RazorPay, G-pay
 - E-Mandate Integrated with YesBank, SBI, ICICI, DIGIO
 - E-Sing Implementation with Digio and Authbridge
 - E-Stamp Implementation with Digio and Authbridge
 - Aadhaar Verification, Pan Verification, RC, Bank Statement Verification,
 - Electric bill verification API Implemented
-

Technical Skills:

- PHP
- Angular , Laravel , Express, Angular JS (2.0) , Dot Net
- OOPS Concepts
- Programming Languages - PHP , Java, C, C++ , Javascript
- Database – MySQL
- ChartJs
- **Tools** – Postman, BitBucket, GIT
- Agile methodology

Additional Skills:

- Ability to work independently and as part of a team
- Well versed with communications skills and problem-solving skills
- Ability to collaborate effectively in a team environment
- Knowledge of JIRA, Github and Bitbucket
- Ability to interact with customers.
- Ability to deliver work in timeline
- Ability to provide technical guidance to juniors regarding processes, functionalities

Certifications:

- PHP and My SQL in IIT Bombay
- Dot Net
- Machine Learning Techniques for Time Series Data Analysis Including Application over Stock Market Data (VNIT)

Education:

- **Bapurao Deshmukh Collage Of Engineering, Sewagram** (2014-2020)
Bachelor of Computer Engineering
