EXPERIENCE

Full Stack Developer

Mar 2023 – Present

Aloha Technology Pvt. Ltd

Pune, Maharashtra

- Built scalable enterprise apps using **ASP.NET Core**, **C#**, **Entity Framework**, and **PostgreSQL/MSSQL**, improving backend efficiency by **30%**.
- Designed RESTful **Web APIs** and integrated with ReactJS and jQuery for dynamic UI, reducing page load times by **20%**.
- Improved database performance using **LINQ**, **indexes**, and optimized queries, reducing response times by **40%**.
- Followed **Agile and Git-based workflows**, ensuring timely delivery and version control across feature branches.
- Used **DevExtreme**, Bootstrap, and custom components to build responsive, user-friendly dashboards.

EDUCATION

Prof. Ram Meghe Institute of Technology and Research Badnera

June 2018 - June 2022

Bachelor of Engineering in Mechanical Engineering

CGPA - 9.34

TECHNICAL SKILLS

Languages: C#, Java, SQL, jQuery

Frameworks & Libraries: ASP.NET Core, ASP.NET MVC, Entity Framework Core, AngularJS, NUnit

Databases: PostgreSQL, MSSQL, MongoDB

Tools: Visual Studio, VS Code, Git, TortoiseHg, DevExtreme

Cloud: AWS (EC2, S3, Lambda)

Concepts: REST APIs, OOP, LINQ, Microservices, Web APIs

PROJECTS

Deepfreeze Cloud | ASP.NET Core, C#, Entity Framework, PostgreSQL

- Developed scalable RESTful APIs using **C#** and **Entity Framework Core**, improving system responsiveness by **35%**.
- Integrated **PostgreSQL** with optimized queries and indexing, reducing data retrieval time by **25%**.
- Implemented service and repository patterns, enhancing code reusability and maintainability.
- Worked on user-facing modules and admin tools, handling role-based access, audit logs, and real-time data updates.

Faronics Deploy | ASP.NET MVC, C#, ReactJs, PostgreSQL

- Built backend features in **ASP.NET MVC and C#** for remote deployment and monitoring of the enterprise systems.
- Developed interactive dashboards using **ReactJS** and **DevExtreme**, improving data visibility for 1000+ endpoints.
- Enhanced system performance by refactoring business logic and optimizing **LINQ-to-SQL** operations.
- Added logging, notifications, and **Role-Based Access Control (RBAC)** support for better monitoring and user management.

CERTIFICATIONS

Geeks for Geeks – Master Java Program

TRAINING INSTITUTE

QSpiders – DotNet Full Stack

Completed beginner-level training in DotNet Full Stack development.
