CARRER SUMMARY:

To secure a challenging role as a Backend Developer leveraging 2.4 years of hands-on experience in Laravel, API development, and problem-solving. Skilled in designing scalable applications, integrating third-party APIs, and implementing secure, role-based authentication. Dedicated to continuous learning and contributing to organizational growth.

WORK EXPERIENCE:

Laravel Developer – GetMeOnline (June 2024 – Present)

- Developing and maintaining scalable Laravel-based applications including Shopify integrations, inventory apps , SME platforms , and a workshop booking system. Worked on API development, WhatsApp automation, real-time features, webhooks, and payment gateways using Laravel, MySQL, Shopify API, WhatsApp API, Firebase, and Git.

Freelance Laravel Developer – Medifinder Healthcare Solution Pvt Ltd (March 2023 – May 2024)

- Collaborated with a freelance team to develop healthcare and travel-based web applications by implementing backend logic, designing database structures, building RESTful APIs, and integrating real-time features using Laravel.

TECHNICAL SKILLS:

- API development for mobile and web applications with role-based authentication and authorization using Laravel policies and middleware.
- Integration of third-party APIs including Shopify, Google APIs, Meta APIs, and WhatsApp JSON flows.
- Payment gateway integration with Razorpay and PhonePe for secure online transactions.
- Implementation of webhooks for real-time data synchronization and automated workflows.
- Efficient background job processing using Laravel Queues and Jobs to handle asynchronous tasks.
- Development of real-time chat and notification features using Firebase and Ably.
- Creation and management of admin panels for streamlined backend operations and data control.
- Debugging, performance optimization, and resolving complex technical issues to improve system stability.

KNOWLEDGE DOMAIN:

Programmming Languages	: C, C++, PHP
Web Technology	: HTML5, CSS3, PHP, Bootstrap, JavaScript, jQuery, AJAX
Frameworks	: Laravel, Node.js
Api	: RESTful APIs, Third-Party APIs
DB	: MySQL
Payment APIs	: Razorpay, PhonePe
Tools & Version Control	: Git, Bitbucket, AWS S3 , Firebase
Other Skills	: Data Structures & Algorithms, Problem Solving

PROJECTS:

Name of the Company: GetMeOnline

Technologies: Laravel, Node, Rest api, Shopify API, Webhooks, Shopify Apps (Embedded App SDK or Admin API), WhatsApp Business API, Meta Cloud API, OAuth (for Shopify app authentication), Bootstrap, Js, AJAX, MySQL, Git.

Role: Laravel developer

1. Name of the Project: Buzzx.io

Brief description of the project: Developed and integrated an official WhatsApp Business messaging solution into Shopify, enabling merchants to send automated messages such as abandoned cart reminders, order updates, and promotional campaigns. Ensured compliance with WhatsApp policies while optimizing scalability and user-friendly automation for businesses of all sizes.

Name of the Company: GetMeOnline

Technologies: Laravel, Shopify API, Webhooks, Shopify Apps , WhatsApp Business API, Meta Cloud API, OAuth , Bootstrap, Js, AJAX, MySQL, Git.

2. Name of the Project: thelocatr

Brief description of the project: Developed a secure and user-friendly workshop booking platform with role-based authentication, admin panel management, and real-time notifications. Enabled seamless booking, scheduling, and payment processing to enhance user experience and operational efficiency.

Name of the Company: GetMeOnline

Technologies: Laravel, MySQL, RESTful APIs, Bootstrap, JavaScript, AJAX, Razorpay, Role-based Authentication, Git.

3. Name of the Project: Karobaar

Brief description of the project: Karobaar is an app that helps shopkeepers easily manage their daily inventory and make product inquiries to wholesalers. It simplifies the ordering process and makes stock management more efficient.

Name of the Company: GetMeOnline

Technologies: Laravel, Bootstrap, Js, AJAX, MySQL, Git, Firebase, Ably, WhatsApp API, RESTful APIs.

Role: Backend developer

4. Name of the Project: Bharatbiz

Brief description of the project: BharatBiz is a platform that empowers small and medium enterprises (SMEs) in India, providing them with the tools to connect, grow, and thrive in a competitive market. It's designed to drive business success and foster growth in the Indian business landscape.

Name of the Company: getmeonline

Technologies: Laravel, AJAX, MySQL, Phonepay, WhatsApp API, Webhook Integration, Job and Queues .

Role: Backend developer

5. Name of the Project: Go4explore

Brief description of the project: Go4Explore is a travel community that offers personalized, fun-filled trips to unexplored Himalayan destinations. We curate unique itineraries, trekking, and camping experiences, all designed to fit your interests and budget, ensuring an unforgettable journey.

Name of the Company: Go4explore

Technologies: Laravel, Bootstrap, MySQL, AJAX, Js, RESTful APIs, Admin panel, Bug Fixing, Payment Gateway

Role: Backend developer

6. Name of the Project: Medifinder

Brief description of the project: The app is designed to simplify healthcare services by enabling users to easily book doctor appointments, lab tests, ambulance services, and hospital stays. It connects customers with healthcare providers and partners, offering a seamless platform for booking and managing medical services.

Technologies: Laravel, Bootstrap, Js, MySQL, AJAX, RESTful APIs, Admin panel, Bug Fixing, Payment Gateway, push notification, Git

Role: Backend developer

EDUCATION QUALIFICATION:

B.Sc. - Guru Jambheshwar University of Science & Technology, Hisar (Haryana) (2018-2022)

Certificates:

C, C++ , DSA in depth by Saurabh Shukla , Instructor, Mysirg Services pvt. Ltd. (Sep 2022 - Mar 2023)
