Projects

Migradent Dental Clinic [↗](#)

I work as a frontend developer as well as a PHP backend developer, and I also use Laravel to build applications. On the frontend side, I focus on creating responsive applications and websites, and I develop contact forms that store submitted data in a database

Majesticarts Art Gallery [↗](#)

I developed a PHP-based website using MySQL that sells paintings. I implemented a mail function in a form to send submitted data to the admin's email.

Sharda Auto Industries [↗](#)

Worked on that website to change some frontend side changes and add multiple content in the website and make website responsive

Hospital websites
