EDUCATION

Dhirubhai Ambani Institute of Information and Communication Technology Gandhinagar, IN
Master of Science in Information Technology - CPI: 7.8 July 2023 – Present

Sutex Bank College of Computer Application Science Surat, IN
Bachelor of Computer Applications - CPI: 8.91 July 2020 - March 2023

EXPERIENCE

Software Engineer Intern January 2025 - Present
Verse Innovation (DailyHunt) Bangalore, IN

- Built 3 internal tools (MetaUI, Notification-UI, Xpresso-UI) using ReactJS, Redux-Saga, and GraphQL.
- Developed Cricket Match Dashboard with Opta API integration serving 300M+ DailyHunt users, improving operational efficiency by 40% through modern frontend architecture implementation
- Implemented Manual Content Tagging platform with advanced search/sorting functionality and implemented real-time notification system using GraphQL microservices and automated Cron job scheduling
- Migrated deployment infrastructure from costly Google Cloud virtual machines to containerized Docker applications, reducing deployment costs by 55% while maintaining system performance
- Created Docker containerization setup for 10+ frontend applications, enabling scalable deployment architecture and improved resource utilization on Google Cloud Platform

FrontEnd Intern April 2024 - June 2024
Whitestone Infotech Surat, IN

- Collaborated with senior developers and project managers to build full-stack web application using React.js, Node.js, and MongoDB.
- Implemented Redux Toolkit for state management and integrated 5+ APIs using Axios for seamless data handling across application components

PROJECTS

ANIMALL | *ReactJS, NodeJS, ExpressJS, MongoDB, HTML/CSS* May 2024 - August 2024

- Developed "ANIMALL," an e-commerce platform for trading domestic animals, showcasing problem-solving skills and built with ReactJS, NodeJS, and MongoDB.
- Configured 8+ key features including advanced search with filter categories, RazorPay payment gateway integration, and secure OTP-based recovery system.
- Designed responsive user interface with 20+ React components and automated email notification system for seamless buyer-seller communications.

WildTrack | *PostgreSQL, Git, Draw.io* Sept 2023

- Designed a PostgreSQL database to track wildlife statistics, including animal counts, species details, funding, and migrations. Normalized the schema and executed SQL queries for generating detailed reports on species distribution and resource utilization.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, SQL

Frontend Technologies: ReactJS, Redux-Saga, React-Query, HTML5, CSS3, TailwindCSS, Ant design

Backend Technologies: Node.js(Basic), Express.js, GraphQL

DevOps: Docker, Kubernetes, ArgoCD

Development Tools: VS Code, Git, GitLab, Postman

ACHIEVEMENTS

- Achieved LeetCode rating of 1534 with 200+ problems solved
- Core member of Culture Committee, organized 10+ events for 500+ students
- Led college cricket team to 3 consecutive championship victories (2021-2023)
