SKILLS

Languages & Frameworks

C#, SQL, LINQ, .NET Core, ASP.NET MVC, Web API, Entity Framework Core, HTML, Rest API, GraphQL API, React.js

Architecture & Design

Microservices, REST APIs, Repository Pattern, Dependency Injection, SOLID Principles

Messaging & Caching

RabbitMQ, Redis

Databases

MS SQL Server, Redis, Elasticsearch

Cloud & Analytics

Azure Services, Tableau, StarUML (for ERD/SRS)

Tools & Platforms

Git, Visual Studio, Postman, Swagger, JIRA

EDUCATION

BACHELOR OF ENGINEERING IN INFORMATION TECHNOLOGY

NAGPUR

2019 - 2023

CGPA: 8.4/10

HSC

2018-2019

PERCENTAGE: 85.23%

SSC

NAGPUR

2016 - 2017

PERCENTAGE: 95.02%

LANGUAGE

- Hindi
- English
- Marathi

ABOUT ME

Backend Developer skilled in building scalable APIs using C#, .NET Core, and ASP.NET MVC in microservices-based e-commerce systems. Familiar with Azure fundamentals and React.js for full-stack development.

Proven ability to solve real-world issues (e.g., order loss, session timeout) and optimize API integrations (Klaviyo, Azure Blob). Focused on contributing to impactful backend/full-stack roles in high-performance enterprise solutions.

WORK EXPERIENCE

Amla Commerce - Software Engineer

JULY 2023 - PRESENT

- Designed a config-driven storage layer enabling seamless cloud/VM deployment, reducing manual configuration by 30%.
- Worked with **headless and microservices architectures** to enhance system scalability and flexibility.
- Migrated static configuration logic to a dynamic schema in Znode Admin UI using ASP.NET Core MVC, reducing deployment effort by 50% and improving flexibility for multi-tenant deployments.
- Implemented and optimized third-party API integrations, including **Klaviyo integration for email marketing** to streamline customer communication.
- Resolved high-priority bugs in e-commerce modules related to order loss due to session timeouts and concurrency issues.
- Designed secure forgot/reset password workflows using **token-based authentication** in ASP.NET Core MVC.

Amla Commerce - Intern

JAN 2023 - JUNE 2023

- Developed an **HRMS project** with a team of two, enhancing HR process 25% through streamlined UI and backend integration, cart functionality, and order processing.

PROJECTS

Smart Complaint Analyzer System

Full Stack Project / .NET Core, React.js, Elasticsearch, Redis

- Designed a complaint management system integrating Elasticsearch for fuzzy search, Redis caching for performance, and React UI.

Tableau Data Analysis Dashboard

- Built interactive visual reports and dashboards to analyze customer feedback and orders.

CERTIFICATES

- Barclays Lifeskill Aptitude Program by GTT - 2023
- Employee of the Quarter (Amla Commerce, 2024)
- Tableau Workshop Certificate - 2022
