Professional Summary

Full-Stack / Frontend Engineer with **3+ years of experience** building scalable, high-performance applications using the **MERN stack (MongoDB, Express, React, Node.js)**, **TypeScript**, and modern UI frameworks. Hands-on experience in **REST APIs, GraphQL, automation workflows, cloud integration, CI/CD**, and writing **unit/integration tests**. Skilled in building engineering-focused solutions that improve performance, automate processes, and enhance product reliability.

Quick Guide

- **3+ years of MERN full-stack experience** with strong skills in React, TypeScript, Redux, Tailwind, Styled Components, Node.js, Express.js, MongoDB, and building/optimizing REST APIs with GraphQL exposure.
- **Proficient in modern engineering practices** including Jest, Docker; GitHub/; Jira; Agile/; SDLC .
- **Hands-on with CI/CD and automation** using GitHub Actions, cloud fundamentals, and integrating **n8n + AI workflows** to automate business processes and enhance system performance.

Education

Graduated in Mechanical Engineering

- Sinhgad Institute of Lonavala, Pune with 8.53 CGPA

Experience

Full Stack Developer , Matka Food PVT LTD – Hyderabad, oct 2024 – Present

- Developing a full **Next.js + TypeScript + MongoDB** application for managing inventory and analytics across 7 branches.
- Built **role-based dashboards**, scalable UI architecture, and secure JWT-based authentication.
- Integrated workflows using **n8n + AI**, enabling automated reporting and data processing.
- Contributed to API design, backend logic in Node.js, and high-level architectural decisions.
- Worked in **Agile teams (Scrum)** using Jira, GitHub, and release pipelines.

Software Engineer , Bizmorphic Researched PVT LTD – Hyderabad, June 2024 – Oct 2024

- Developed and deployed official product website using **React, TypeScript, Redux, Tailwind** .
- Developed and enhanced features inside the internal dashboard, including UI components, data views, and workflow screens.
- Enhanced internal dashboards, added new workflows, and optimized cross-team processes.
- Used **Jest + RTL** for unit testing UI components.
- Integrated REST APIs and improved system performance through reusable components.

Web Developer, Mosol9 – Hyderabad May 2023 – Jun 2024

- Worked on multiple WordPress websites, including custom development, plugin configuration, theme adjustments, and performance improvements.
- Optimized HTML, CSS, and JavaScript, significantly improving website load time and solving performance issues across several client websites.
- Designed and developed responsive UI components, ensuring cross-device compatibility using Bootstrap and modern CSS practices.
- Handled maintenance and updates for static HTML websites, improving UI consistency, responsiveness, and SEO hygiene.

Technologies

Frontend Development: React.js, Next.js, Redux, TypeScript, JavaScript (ES6+), Tailwind, Styled Components, CSS-in-JS, Bootstrap, shadcn UI

Backend: Node.js, Express.js, REST APIs, GraphQL (Basics), MongoDB, MySQL

Testing : Jest, React Testing Library (RTL)

DevOps & Tools : GitHub, Docker

State Management / Libraries: :Redux, React Router

Libraries: Redux,,React Router,Bootstrap,Tailwind ShadCN

Other Skillsx: Responsive Web Design,RESTful APIs ,WordPress,Hostinger,cPanel,Jira,Agile/Scrum, SDLC documentation, Estimation, CI/CD,

Cloud : AWS (Basics),

Version Control: GitHub

AI: n8n Automation

Certifications - Achievements

Google Cloud Certified Associate - Cloud Engineer

Recognition as 'Star of the Month' award Bizmorphic Research Pvt. Ltd. for completing two major projects in four months:
