Objective

"Tech-savvy and adaptable Computer Science graduate seeking a Software Developer role, with a strong foundation in front-end technologies including HTML, CSS, JavaScript and backend development using Java and Oracle SQL, Eager to contribute technical expertise and innovative thinking to meaningful projects while continuously growing within the technology industry."

Technical Skills

- **Languages:** Core Java, SQL, Html, CSS, JavaScript, React JS
- **Tools:** VS Code, Eclipse, MySQL Workbench
- **Database:** Oracle SQL, MYSQL
- **Concepts:** OOPS, DSA, DBMS, Responsive Design

Projects

- **Analog clock:** HTML, CSS, JAVASCRIPT (VS Code)
Built a fully responsive, animated Analog Clock using HTML, CSS, and JavaScript. Implemented real-time movement using JavaScript Date () and requestAnimationFrame() for smooth performance.
- **Rock Paper Scissor Game:** HTML, CSS, JavaScript (VS Code)
Developed an interactive Rock–Paper–Scissors web game with dynamic score updates and instant results. Used core JavaScript (DOM Manipulation, Event Handling) to generate computer moves and determine outcomes. Created a responsive and user-friendly UI with optimized layout for mobile devices.
- **My Portfolio:** HTML, CSS, JavaScript (VS Code)
Designed and deployed a responsive personal portfolio website to showcase skills, projects, and experience. Added smooth animations, interactive navigation, and section-wise structure (About, Projects, Contact, Education).
- **Weather App:** HTML, CSS, JavaScript (VS Code)
Developed a responsive Weather Application that displays live weather information by entering a city name. Integrated real-time data using OpenWeather API to fetch temperature, humidity, wind speed, and weather conditions. Implemented JavaScript, Fetch API, async/await functions, and error handling for accurate and smooth results.

Experience

Renu Electronics Pvt Ltd Company
Trainee Engineer

Dec 2023 – March 2025
Ghotawade, Pune

- Performed product functionality testing using Merlin-NBIOT software, ensuring 98% bug-free releases.
- Streamlined documentation using Excel & Word, improving team efficiency by organizing product data clearly.
- Collaborated with senior engineers to understand product workflows and testing standards.

Education

- Full Stack Development Course from Q-Spiders wakad, Pune (2023)
- BE in Computer science (8.84) Savitribai Phule Pune, University (2022).
- Diploma in Computer Science (75.25 MSBTE (2019))

Leadership / Extracurricular

*Certification in web development using PHP.
