Education

Master of Computer Application, ABES Engineering College - (GPA - 8.26)	2024 – 2026
Bachelor of Computer Application, Kanpur Institute of Technology, Kanpur	2020 - 2023

Project Experience

StackKart - FullStack E-Commerce Platform	Github
<u>Tool Used:</u> React.js, TailwindCSS, Node.js, Express.js, MongoDB, ShadCN UI	Website Link
- Engineered a full-stack e-commerce platform leveraging React, Tailwind CSS, and ShadCN UI, achieving a 40% boost in user engagement. - Developed a scalable backend with Express.js and MongoDB, implementing JWT-based authentication with cookies to ensure safe login sessions and 99.9% uptime reliability. - Integrated Stripe Payment Gateway to facilitate seamless transactions, reducing checkout time by 30%.	
Rapid8 - Emergency Medical Response Application	Github
<u>Tool Used:</u> Next.js, TailwindCSS, Node, Express, MongoDB, Material UI, ChatGPT	Website Link
- Built a real-time medical emergency app in a 4-member team during a hackathon, enabling users to request ambulances instantly and reducing response time by 30%. - Integrated Google Maps API for live location tracking and optimized ambulance routing to ensure faster medical assistance. - Collaborated in a team environment, contributing to both Frontend and Backend development.	

Technical Skills

Technical Skills: C++, C, Python, JavaScript

Frameworks and Libraries: React.js, Node.js, Express.js, TailwindCSS, ShadCN UI

Databases: MongoDB, MySQL

Tools and Platforms: Git, Github, VS Code, Postman, Render

Internships and Experience

FullStack Developer, Innobyte Services – New Delhi	April 2024 – May 2024
- Developed a Full Stack VPN service website (LaslesVPN) using React.js, Tailwind CSS, and Core CSS, ensuring responsive design and modern UI/UX. - Deployed frontend on Vercel and backend on Render, delivering a production-ready application with 25% faster load times and improved scalability.	

Certificates

Full Stack Web Development using MERN - JSpiders,	Nov 2023
CISCO Python Essentials	April, 2024
