

KRANTI TULE

7219501315 | krantitule24@gmail.com

Summary

Bachelor of Computer Application (BCA) student with hands-on experience in backend development using Java and Spring Boot. Skilled in writing clean, efficient code and optimizing performance. Familiar with RESTful APIs, multithreading, and design patterns. Also contributed to building an open-source no-code automation tool.

Certifications/Tranings

- Diploma in web Design @ Technolearn Tranings
- Diploma in J2EE @TecnoLearn Tranings
- MySQL Basics. @Simplilearn

Education

- Bachelor of Computer Application (BCA). @Shardabai Pawar Arts, Commerce and Science College 2024
Shardanagar, Baramati. 8.48.
- HSC @Manorama Memorial Junior College Kedgoan. 84.50% 2021
- SSC. @Manorama Memorial High School Kedgoan. 61.40%. 2019

Skills

- Java. Spring boot. Html. CSS.
- MySQL. JPA. REST API. GitHub

Projects

- 1. **Synapraxis automation tool java, spring boot, mysql, spring security)**
 - a. Closely worked on Jwt and spring security features.
 - b. Implemented central logging feature for all the spring boot microservice with the help of Slf4j
 - c. Implemented authentication in api gateway to authenticate all incoming requests in application.
 - d. Good exposure on building mcp servers and communicating via sse.
 - e. Hands-on experience in Integration with payment gateways like phonepay, razorpay.
 - f. Have exposure on langchain to build working agents and implemented openal api's as well to make this rag pipelines more powerful.
- 2. **CMS (Java, spring boot, RESTFull APIs, MySQL)**
 - a. Closely worked in periodic and software communication like capturing images from camera(this is detected by our hardware) and uploading to the server then processing it and showing on the admin with all information.
 - b. Implemented get api with pagination, drastically improves the api performance by adding this step.
 - c. I worked on mysql side as well in indexing the columns for fast data fetching.
 - d. Implemented logging feature in the entire application, it helped us a lot in debugging the issues and addressing the problems/issues very quickly.
