PROFESSIONAL SUMMARY

Results-driven **Full Stack / MERN Stack Developer** with **3+ years of experience** delivering **scalable, high-performance web applications** for startups and businesses. Strong expertise in **React.js, Node.js, Express.js, PHP, MySQL, and MongoDB**, with hands-on experience in **REST API development, authentication (JWT), role-based access control, admin dashboards, automation workflows, and AI voice-integrated systems**. Proven ability to translate business requirements into **production-ready solutions**, improve performance, and enhance user experience. Actively seeking **part-time, freelance, or remote opportunities** with growth-focused teams.

TECHNICAL SKILLS

Front-End

HTML5, CSS3, Bootstrap 5, JavaScript (ES6+), React.js, jQuery

Back-End

Node.js, Express.js, PHP

Databases

MySQL, MongoDB

Tools & Platforms

Git, GitHub, Postman, VS Code, REST APIs, Docker, AWS

Other Skills

API Integration & Development, JWT Authentication, Redux / Redux Toolkit, MVC Architecture, WebSocket, Deployment (Netlify / Vercel / EC2), Responsive Design, CRUD Operations, Website Optimization

PROFESSIONAL EXPERIENCE

Self-Employed – Full Stack Web Developer

Remote | Part-Time / Contract

Duration: 2023 – Present

- Delivered **10+ responsive websites and full-stack applications** using **React.js, Node.js, PHP, MySQL, and MongoDB**.
 - Designed and developed **RESTful APIs** with secure authentication (**JWT**) and role-based access control.
 - Integrated front-end interfaces with back-end services, improving **data flow and application reliability**.
 - Designed and optimized relational & NoSQL databases, reducing query time and improving performance.
 - Built **admin dashboards, task management modules, and automation workflows** for business operations.
 - Improved page load speed and UX through code optimization and responsive design best practices.
 - Collaborated directly with clients to gather requirements and deliver **scalable, production-ready solutions on time**.
-

PROJECTS

Newsletter Subscription & Automation Platform

Live: <https://myworksmart.in/>

Tech Stack: PHP, MySQL, JavaScript, Bootstrap

- Built a complete newsletter subscription system with user registration.
 - Automated **daily/weekly email delivery** to subscribers.
 - Implemented authentication, subscription management, and email logic.
 - Designed an admin **panel** to manage subscribers and content.
-

Employee Task Management & AI Voice Assistant System

 **Live:** <https://lsc.mitsde.com/todo-project/login.php>

 **Tech Stack:** PHP, MySQL, JavaScript, AI Voice Integration

- Developed a task management system for daily employee tasks.
 - Integrated **AI voice feature** to answer: *"What is my pending task?"*
 - Displayed real-time pending task count with voice response.
 - Implemented task completion flow with popup confirmations.
 - Built **admin/manager dashboard** for deadlines and reminder notifications.
-

Landing Pages – Modern UI & Lead Generation

 **Live URLs:**
