WORK EXPERIENCE

Mastiff Solutions Pvt Ltd, Amravati

Full Stack Developer

Feb,2023 –Mar,2025

During my internship, I acquired skills in HTML, CSS, Bootstrap, JavaScript, jQuery, MySQL, Php.

Developed many microservices using PHP and CodeIgniter.

Developed modern web applications using PHP, CodeIgniter (CI3/CI4), SQL (MySQL).

Projects/ Role and responsibility:-

Doctor Appointment Management System

- A web application designed to manage appointments and treatments for patients.
- As a Backend Developer, my responsibilities included creating the Doctor Panel for managing patient data.

Vehicle Service Management System

- A web application for managing vehicle services and notifying customers about upcoming services.
- As a Backend Developer, I was responsible for implementing notifications to customers about their vehicle services using API calls.

PM E-Bus Monitoring Portal

- A web application used for monitoring and fetching geotagged location data of bus routes and substations.
- As a Web Developer, my responsibilities included developing the central and state government panels for real-time monitoring.

Child Location Tracking Portal

- A web application designed for children's safety, enabling real-time tracking of children's locations via geolocation data.
- As a Backend Developer, my responsibility was to create the Parent Panel for monitoring the child's location.
