ABOUT ME

I am a Senior Front-End Developer with over 9 years of experience in crafting scalable web applications. My expertise lies in React.js, TypeScript, and modern web technologies, which I utilize to build high-performance, user-centric interfaces. Deeply proficient in HTML5, modern CSS (SASS/Tailwind), and ES6+ JavaScript. I am passionate about usability, consistently translating complex Figma/Adobe XD designs into pixel-perfect, accessible interfaces. I am passionate about transforming complex designs into accessible digital experiences and consistently strive for optimization and collaboration in every project.

PORTFOLIO & KEY PROJECTS

Project Name & Focus : 24thmileglobal — Global Sourcing B2B Platform

URL : <https://24thmileglobal.com/>

My Technical Contributions : Developed the responsive B2B platform using React.js and Tailwind CSS. Focused on high-speed data presentation and clean UI components for complex sourcing workflows.

Project Name & Focus : Arma Dental Clinic — Web Application

URL : <https://armadental.in/armadentalapp/app/public/login>

My Technical Contributions : Built the core front-end for this clinic management web application. Responsible for UI development for patient management, appointments, treatment plans, and accounts/billing modules.

Project Name & Focus : Zen — Architectural Products

URL : <https://zenbg.com.au/doors/>

My Technical Contributions : WordPress integration. Developed a complex, dynamic Custom Quote Page using JQuery and JavaScript to allow users to select products/options and receive a real-time final cost estimate.

Project Name & Focus : MasalDani — Catering Services

URL : <https://masaldani.in/>

My Technical Contributions : Shopify E-commerce. Customized and implemented the front-end design for this catering platform, ensuring mobile responsiveness and optimal user flow.

Project Name & Focus : Trophy Made — Online Trophies

URL : <https://trophymade.com/>

My Technical Contributions : WordPress integration. Developed a dynamic single-product page using jQuery/Ajax for complex real-time user customization (font changes, logo uploads, engraving options).

Project Name & Focus : Calibrenine — SEO AGENCY

URL : <https://calibrenine.com.au/>

My Technical Contributions : WordPress integration. Translated Invision app designs into code. Implemented custom JavaScript/jQuery animations to enhance user engagement and visual design fidelity.

Project Name & Focus : Shk Global — Food Suppliers

URL : <https://shkglobal.com.au/>

My Technical Contributions : WordPress integration. Built the front-end following designer-supplied Invision mockups, focusing on responsive design and brand presentation.

Project Name & Focus : Consulting, Peter Casamento, Sky Accountants

URL : <https://matterconsulting.com.au/>,

<https://casamento.principledesign.com.au/>,

<https://www.skyaccountants.com.au/>

My Technical Contributions : WordPress integration. Converted complex, multi-platform designer files (AI, XD, PSD, Invision) into pixel-perfect, cross-browser compatible WordPress themes/templates using HTML, SCSS, and JavaScript/JQuery.

EDUCATION

Master of Computer Applications (MCA), 2023

Dr. Bhimrao Ambedkar University, Agra

**Bachelor of Science in Information Technology (B.Sc. IT),
2012**

Calorx Teachers University, Ahmedabad
