

TAUSIF SHEIKH

Frontend & Shopify Developer

+91 8793194591 | sheikhtousif148@gmail.com [GitHub](#) | [LinkedIn](#)

Career objective

To secure a role as a **Software Engineer/Frontend Developer** where I can leverage my expertise in web development, Shopify customization, and e-commerce solutions to deliver high-quality, user-centric applications while contributing to organizational growth.

Work Experience

Frontend & Shopify Developer

Vowel Web, Nagpur | Oct 2023 – Present

- Specialize in end-to-end custom Shopify theme development, creating unique e-commerce solutions from initial concept to deployment Optimize themes for performance, mobile responsiveness, and cross-browser compatibility.
- Build performant, responsive themes using Liquid templating, modern CSS/JavaScript, and Shopify CLI
- Develop custom Shopify theme components, sections, and functionality using Liquid, JavaScript, and Shopify's theme architecture.
- Optimize theme architecture for maintainability while adhering to Shopify's coding standards
- Integrate third-party systems including payment processors, ERPs, and marketing platforms
- Implement performance enhancements through code optimization, lazy loading, and asset management

Projects

1. Adorn Theme (*Custom Shopify Theme*)

- Published on the official Shopify Theme Store as a premium theme for beauty/fashion/lifestyle brands
- Features a clean, modern layout with customizable sections for diverse merchandising needs
- Optimized for conversion with fast loading speeds (scored 95+ on Lighthouse performance tests)
- Live Demo: <https://adorn-demo.myshopify.com/>

2. Aroma Theme (*Custom Shopify Theme – In Progress*)

- Coffee bean/blend collections
 - Scent profile exploration
 - Food pairing recommendations
 - Live Demo: <https://aroma-demo.myshopify.com/> , Password: aroma
-

Web Development Trainee

Codeosity IT Park, Nagpur | 6 Months

- Acquired hands-on experience in HTML, CSS, JavaScript, and PHP through structured training.
- Developed real-world projects to strengthen frontend development skills and problem-solving abilities.

Projects

1. Admin Panel (PHP)

- Technologies: HTML, CSS, JavaScript, PHP

- Developed a secure admin panel with authentication, user/content management, and analytics.
- Implemented security measures (CSRF protection, activity logs) and ensured responsive design with robust error handling.
- Live Demo: <http://questbook.infinityfreeapp.com>

2. My Weather App

- Technologies: HTML, CSS, JavaScript, Fetch API
- Fetches real-time weather data (temperature, humidity, wind speed) from a weather API.
- Integrated smart error handling using try-catch for invalid inputs, enhancing user experience.
- Live Demo: <https://tausif148.github.io/My-Weather-App/>
