CAREER OBJECTIVE

To work as a Laravel Developer in a growth-oriented organization where I can apply my technical skills in PHP, Laravel, MySQL, and modern web development technologies. I aim to contribute to scalable application development while continuously improving my backend, API, and system-design capabilities.

EDUCATION

Master of Computer Application (MCA) Sep 2023 – June 2025

Integral University, Lucknow | CGPA: 8.0

PROJECTS

Myntra Clone – E-Commerce Website

Technology: Laravel, PHP, MySQL, Bootstrap, jQuery, AJAX

A fully functional e-commerce web application developed using Laravel, featuring separate Admin and User modules with complete order and product management workflows.

Key Features:

- Admin Dashboard for managing products, coupons, carousel banners, and orders
 - Product listing with wishlist and add-to-bag functionality
 - Secure checkout process with multiple payment options (COD, Card, UPI, QR)
 - Automated email notifications and invoice generation after successful orders
 - Order tracking with real-time delivery status updates
-

LNMU Grievance Redressal Portal (*Live Project*)

Live URL: <https://sachinweb.com/raza>
