PERSONAL PROJECTS

viyoniagro.com– Company Website

- Successfully developed and deployed a fully functional WordPress-based company website. Customized themes and plugins to meet business needs and deliver a responsive, user-friendly interface. Implemented SEO optimization strategies, improving search visibility and organic traffic.
- Integrated Razorpay payment gateway for seamless e-commerce transactions. Enhanced website performance with caching, media optimization, and security updates.
- <https://viyoniagro.com/>

Super beings Fitness india

- I developed **SuperBeingsIndia.com**, a professional gym and fitness website using WordPress with a clean, modern, and fully responsive design. The website includes **secure payment gateway integration**, membership and service sections, contact forms, and optimized content for better performance and user experience.
- I also managed complete site setup, customization, and ongoing maintenance to ensure smooth and reliable operation.
- <https://superbeingsindia.com/>

CRYPTOCURRENCY APPLICATION

- I built this react-based crypto currency application using Chakra UI, bootstrap, and Crypto API.
- Also, we will be passing in dynamic data via props to a hero image class component.

WILD LIFE DETECTION USING IOT AND ANDROID (08/2022 - 05/2023)

- To provide protection to farmworkers from the attacks of wild animals and thus minimize probable loss to the farmer.
- Achieve an accuracy of 92.2 Percent
