Summary

ASP.NET Developer with hands-on experience in building scalable web applications using ASP.NET Core, MVC, and Web API. Skilled in integrating third-party financial APIs, developing secure backend modules, and working on fintech and HRMS solutions. Strong knowledge of MS SQL Server, REST APIs, authentication, and clean coding practices.

Core Skills

- **Backend:** ASP.NET Core, MVC, Web API, LINQ, Entity Framework
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap
- **Database:** MS SQL Server (Stored Procedures, Joins, Views, Triggers)
- **Integrations:** 3rd-Party REST APIs, Payment Gateways, Aadhaar/Verification APIs
- **Tools/Platform:** Git, Postman.
- **Other Skills:** SDLC, Requirements Analysis, Debugging, Agile Teams

Experience

SOFTWARE DEVELOPER | MULTIFY SOLUTIONS | JULY 2025 – PRESENT

- Developed and maintained **in-house and product-based web applications** using ASP.NET Core, MVC, WebAPI, and SQL Server.
- Worked on core modules of **Loan Management System**, including loan creation, approval workflow, repayment tracking, interest calculation, borrower onboarding, schedule generation, and disbursement logs.
- Contributed to multiple modules of **HRMS**, such as employee onboarding, attendance & leave management, appraisal cycle, asset allocation/return, payroll mapping, and exit management.
- **Birgaon Municipal Corporation (Government Project)**, including modules for employee master records, multiple Master Modules, Access Management, Permission module, attendance regularization, Attendance Revise leave approval workflows, Attendance QA, and government-specific compliance tracking.
- Created secure and reusable REST APIs for internal consumption as well as third-party system integration.
- Designed frontend forms, dashboards, and workflow screens using MVC, JavaScript, Bootstrap, and server-side validations.
- Developed transaction-based modules involving complex business logic, validation layers, and escalation logic for approvals.
- Improved backend performance through query optimization, stored procedures, indexing, and bulk insert logic.
- Participated actively in requirement discussions, documentation, effort estimation, UAT support, version releases, and application deployment on IIS.

WEB DEVELOPER | SHAMINI TECH | MARCH 2024 – JUNE 2025

- Designed and developed multiple company websites for the Shamini Group using HTML, CSS, JavaScript, Bootstrap, and PHP/ASP.NET.
- Delivered responsive layouts, improved UI flow, and optimized website performance for faster load time.
- Worked on individual brand websites including:
Shamini Group, Shamini Infotech, Shamini.in, Shamini Manpower, Shamini Engineering & Infrastructure, Shamini Digital Media, and Shamini E-Commerce.

- Implemented basic admin-level features, content sections, onboarding pages, product listings, and enquiry forms.
- Collaborated with business team to collect requirements, perform updates, and maintain website content.

Project Experience

Loan Management System (FinTech Domain)

Role: ASP.NET Core Developer

Tech Stack: ASP.NET Core API, MVC, SQL Server, JavaScript

Key Contributions:

- Designed secure APIs for loan creation, approval workflow, repayment, and schedule generation.
- Integrated third-party API for borrower verification and transaction processing.
- Improved database execution using optimized stored procedures and indexes.
- Implemented role-based authentication and dashboard analytics.

HRMS (Human Resource Management System)

Modules worked on: Employee Onboarding to Exit, Attendance, Leave, Appraisal, Asset Management

Tech Stack: ASP.NET MVC, SQL Server, Web API

Responsibilities:

- Developed employee self-service and admin modules.
- Created payroll-linked APIs and leave approval workflows.
- Built exit management process including NOC, asset clearance, and reporting.
- Automated appraisal cycle with rating logic and document storage.
- Enabled asset lifecycle tracking (allocate, repair, return).
- Built promotion history module with approval logic and audit log.

HRMS (Birgaon Municipal Corporation(Government Project))

Modules worked on: Employee Master Records, Attendance, Attendance Revise, Attendance QA, Access Management, Permission Module, Leave Workflow, Tracking.

Tech Stack: ASP.NET MVC, SQL Server, Web API

- Developed customized HR modules aligned with government policies and municipal workflows.
- Implemented attendance regularization and multi-level leave approval processes for reporting manager and Admins.
- Created permission module and role-based controls.

MCA | JUNE 2024 | BHILAI INSTITUTE OF TECHNOLOGY, DURG

BCA | JUNE 2022 | PT. RAVISHANKAR SHUKLA UNIVERSITY, RAIPUR

Strengths & Abilities

- Strong logical and analytical thinking
- Clear understanding of business workflows
- Ability to work independently or in a team
- Effective communication

Language

ENGLISH HINDI
