PROFILE SUMMARY

.NET Developer with 3+ years of experience in designing, developing, and maintaining scalable web applications using ASP.NET Core, MVC, C#, Entity Framework, SQL Server, Web API and Azure. Skilled in building high-performance enterprise systems with strong understanding of OOPs, clean architecture, and Agile methodologies. Experienced in collaborating with cross-functional teams, debugging complex issues, and delivering reliable, production-ready software.

SKILLS

- **Languages:** C#, VB.NET, HTML, Javascript
- **Frameworks:** ASP.NET Core, MVC, RESTful Web APIs, Entity Framework
- **Database:** SQL Server (Queries, Stored Procedures, Optimization)
- **Cloud:** Azure

EXPERIENCE

Software Developer

Sep 2022 – Present

Datacore Technologies Pvt. Ltd, Bangalore

- Designed, developed and maintained scalable enterprise web applications using ASP.NET Core, MVC, C#, Web APIs, and SQL Server.
- Developed and optimized complex SQL queries and stored procedures, improving database performance and reducing execution time.
- Developed end-to-end modules for HRMS, Vendor Audit, and Statutory Compliance using ASP.NET Core Web APIs, significantly reducing manual effort for HR and compliance teams.
- Developed and implemented Web APIs for ESIC data integration, enabling automation-driven ESIC auto-generation and substantially reducing manual data preparation efforts.
- Developed complex SQL queries, stored procedures, and optimized database performance.
- Reusable and optimized backend components built, ensuring high performance, reliability, and clean, maintainable code standards.
- Managed source code using Git and possess working knowledge of Azure DevOps and CI/CD workflows.

PROJECTS

E-Manage (HRMS Platform)

A comprehensive HRMS solution covering pre-onboarding & onboarding, Attendance, Leave, Payroll, and Employee Lifecycle Management.

- Built backend API. and business logic using the ASP.NET Core and Web API.
- Integrated Swagger for clear and efficient API documentation.
- Improved module performance with optimized SQL queries and efficient API structure.
- Collaborated with React.js front-end team for end-to-end feature integration.
- **Tech Stack:** ASP.NET Core, C#, SQL Server, Web API

Statutory Compliance Management System

A compliance management solution for handling statutory acts, labor laws, registers, and regulatory reporting.

- Designed and developed backend APIs using ASP.NET Core and Web API.
- Implemented statutory Acts, Laws, and Register management modules.
- Developed dynamic register configuration to support multiple statutory formats.
- Built automated statutory and compliance report generation features.
- Improved application performance through query optimization and efficient API design.
- Maintained data accuracy, audit trails, and compliance validation rules.
- **Tech Stack:** ASP.NET Core, C#, SQL Server, Entity Framework, Web API

Vendor Audit Management System

A web-based solution to manage vendor audits, evaluations, compliance tracking, and corrective actions.

- Built backend APIs and business logic using ASP.NET Core and Web API.
- Developed vendor onboarding, audit scheduling, checklist configuration, and scoring modules.
- Improved system performance through optimized SQL queries and stored procedures.
- Ensured secure data handling with validations and role-based access control.
- Collaborated with front-end team for seamless end-to-end feature integration.
- **Tech Stack:** ASP.NET Core, C#, SQL Server, Entity Framework, Web API

ACCOMPLISHMENTS

- Awarded **Best Employee – Q3 2022**.
- Actively participated in organizational initiatives, sports, and team events.

EDUCATION

Master of Computer Application, Jain University

Expected 2026

Bachelor of Computer Application, Kristu Jayanti College

2018 – 2021
