Dynamic and results-driven .NET Developer with **around 3 years of experience** in developing and maintaining applications across various domains, specializing in backend development, API integration, and system optimization. Skilled in creating and implementing efficient .NET- based solutions, enhancing application performance, and ensuring seamless system functionality. Eager to contribute to a forward-thinking organization committed to innovation and excellence in software development.

EXPERIENCE

Associate Developer

SmartERP Consulting India Private Limited, Bangalore – Karnataka Feb/2023-To-Present

PROJECTS

Superman SalesAdmin, Employee360, TPNFD Module

Client: Mankind Pharma

Duration: February 2023 – Present

Technologies Used: .NET Core, C#, MYSQL Workbench, LINQ, Entity Framework Core, Blob storage

- Contributed to the backend development of a cross-platform pharmacy management module using .NET Core Web API, enabling real-time synchronization and tracking of field activities by medical representatives.
- Developed and optimized RESTful APIs for seamless communication between mobile and web platforms.
- Implemented SQL Server backend logic and performed validation using complex queries and stored procedures.
- Collaborated with frontend teams using React JS and React Native to integrate APIs and enhance user interface responsiveness.
- Ensured high code quality and stability through unit testing and integration tests.
- Used GitHub for source control and JIRA for task tracking and sprint management in Agile workflows.

Superman Admin Module

Client: Mankind Pharma

Duration: February 2023 – Present

Technologies Used: .NET Core, EntityFrameWork Core, C#, MYSQL Workbench, Blob Storage

- Designed and implemented scalable backend services for an administrative interface to manage pharmacy operations and user access.
- Developed API endpoints for real-time data handling, enabling efficient admin control and reporting functionalities.
- Utilized SQL Server and Entity Framework for data storage and management.
- Integrated robust state management with Redux Saga on the frontend while ensuring secure API consumption.
- Performed backend data validations, and managed code versions using Git.
- Participated in Scrum ceremonies and used tools like Azure DevOps and SonarQube for CI/CD and code quality.

Interview-Feedback Project Technologies Used- .Net core web API, EntityFrameWork Core, MYSQL Workbench

Developed an onboarding tool for HR to schedule interviews, record interview data, and shortlist candidates for further rounds based on the information collected during the interview process.

Skills

Programming Languages: C#, SQL, Java, Basics of JavaScript

- Backend development-NET Core, ASP.NET Web API, C#
- Database & Querying : SQL Server, Workbench
- API Development & Integration : RESTful APIs, Swagger,
- , Postman
- Development Practices : Agile Methodologies(Scrum), SDLC,Microsoft Azure
- Testing&Debugging:Unit Testing in .net, Postman for API Testing
- RESTful APIs and JSON And Version- Control: Git

Education and Certification

B.Tech (Bachelor of Technology) - ECE

Yogananda Institute of Technology&Science-Tirupati

Andrapradesh, • 2018-2022 •Grade – 80%

12th - Andrapradesh, • 2016 – 2018 •Grade – 93.5%

10th - Andhra Pradesh • 2015-2016 •Grade – 92%
