

Vishal Gupta

Software Engineer

✉ guptagvishal431@gmail.com ☎ 7906484345 📍 9/117 ghuriya bagh mayour street

PROFILE

Highly motivated and detail-oriented .NET Developer with hands-on experience in building scalable, secure, and high-performance web applications using C#, ASP.NET Core, MVC, Web API, Entity Framework, and SQL Server. Experienced in full-stack development, REST API integration, and responsive UI design using HTML, CSS, JavaScript, Bootstrap, and React. Strong understanding of OOP, SOLID principles, database design, and clean coding practices. Quick learner, effective communicator, and dedicated team player committed to delivering quality software solutions.

EXPERIENCE

Skillteaser Technology pvt Ltd **june2025-present**

Associate software developer (dotnet core mvc)

Worked on web application development projects using .net core mvc, vue.js, and MS SQL

Collaborated with a team to design, develop, and deploy scalable applications for enterprise and financial management.

Integrated back-end APIs, optimized database operations, and improved UI/UX for enhanced user experience

Participated in requirement analysis, testing, and debugging to ensure high-quality deliverables.

EDUCATION

Master of Computer Application	2023	—
GLA University CGPA	2025	
7.45		
Bachelor of Science	2019	—
Agra University	2022	
60.5%		
Senior Secondary	2018	—
Three Dots Sewamarg Public school 72.6%	2019	
Secondary	2015	—
G.D. Public Senior Secondary School	2016	
85.5%		

SKILLS

Technical Skills

Programming Language - C#
Web Dev - HTML, CSS, Integration
Test Cases, Javascript ,Vue.js, SQL server
CS Fundamentals - DBMS, OOPS,
SQL

Soft Skills

Video Editor

Effective Communication: Clear and concise in conveying technical and non-technical information.

Team Collaboration: Works well in cross-functional teams to achieve common goals.

Problem-Solving: Quick at analyzing issues and implementing innovative solutions.

Time Management: Efficient in handling multiple tasks and meeting deadlines.

Adaptability: Flexible and open to learning new technologies and tools.

PROJECTS

ERP-Enterprise Resource Planning

- Developed a modular ERP system consisting of Finance, Sales, and HRM modules to streamline organizational operations.
- Implemented role-based authentication and authorization to ensure secure access to module-specific features.
- Designed and developed RESTful APIs in .NET Core for smooth communication between front-end and back-end services.
- Integrated SQL Server for structured data storage with optimized queries, stored procedures, and indexing.
- Created a responsive and user-friendly UI for easy navigation across all ERP modules.
- Ensured data validation, error handling, and logging for more reliable system behavior.

Company website

- Developed a fully responsive and dynamic company website using ASP.NET Core MVC following the MVC architectural pattern.
- Designed and implemented interactive UI components using Bootstrap and jQuery to enhance user experience.
- Created modular and reusable views, controllers, and models to improve maintainability and scalability.

CERTIFICATIONS

SEO Principles: An Essential Guide for Beginners --- Semrush Academy

2024

A beginner-friendly course that covers the fundamental principles of **Search Engine Optimization (SEO)**. It includes key strategies for optimizing websites, improving search engine rankings, and understanding SEO tools and metrics using **Semrush**.

Full Stack Web Development --- Apna College

2023

A comprehensive course covering both front-end and back-end technologies to build dynamic, responsive, and scalable web applications. It includes hands-on experience with **React.js**, **Node.js**, **Express.js**, **MongoDB**, and other industry-standard tools and practices.

MongoDB Basics --- MongoDB

2023

A foundational course that introduces the key concepts of **MongoDB**, a NoSQL database. It covers data modeling, CRUD operations, indexing, and querying, providing the skills needed to design, manage, and optimize databases in MongoDB.

ACHIEVEMENTS

- **Organized and led a team project** that resulted in a successful website launch, improving collaboration and communication between cross-functional teams.
- **Improved internal communication** by introducing a weekly stand-up meeting, resulting in better project tracking and quicker issue resolution.
- **Consistently met deadlines** during university assignments, demonstrating strong time management skills and dedication to quality work.

KEY RESPONSIBILITIES

- Developed and maintained web applications using ASP.NET Core, C#, Entity Framework, and SQL Server.
- Designed and implemented RESTful APIs with secure authentication using JWT and role-based access control.
- Built responsive and user-friendly interfaces using HTML5, CSS3, JavaScript, Bootstrap, and integrated with backend APIs.
- Optimized database queries and improved backend performance using LINQ, stored procedures, and query optimization.
