

Pravin B. Dhavale

Mobile: 9146411422 **Email:** pravinbdhavale3651@gmail.com

Address: PLOT NO 118, ROAD NO 18 MAROL MIDC, ANDHERI(East), Mumbai-400093.

Specialization: ASP.Net MVC,Ajax, Json, HTML,CSS,SQL, C# /Bootstrap/Web

OBJECTIVE

I just want to explore my knowledge in software industry, for that I'm looking for best opportunities.

EDUCATIONAL QUALIFICATIONS

Course	Institute	University	Passing	Percentage /CGPA
MCA	YCMOU University	YCMOU University	2024	75.17%
BSc(Computer Science)	Shivaji University, Kolhapur	Shivaji University,Kolhapur	2022	70.50%
H.S.C.	LTDP Jr.College, Kalkundri	Maharashtra State Board	2017	60.00%
S.S.C.	Rajgoli Khurd High School	Maharashtra State Board	2015	84.40%

SKILL SET

✦ Scripting Languages : JavaScript and jQuery.

✦ Programming Environments: Edit plus++, Visual Studio 2019, SQL Server 2008 and above.

WORK EXPERIENCE

1.Jr. Software Developer at STARACME (Mumbai), 12 June 2022 to 01 March 2025.

2.Jr. Software Developer at Megdap Innovation Labs PVT. LTD(Remote), 05 March 2025 to till present.

Key Responsibilities:

1. **Application Development :**

- Developing, testing, and maintaining web applications using ASP.NET MVC.
- Writing clean, maintainable, and efficient code to meet project requirements.
- Implementing software design patterns and best practices for scalable and maintainable code.

2. **Requirements Analysis:**

- Collaborating with stakeholders to gather and analyze project requirements.
- Translating business needs into technical specifications and design documents.

3. **Front-end Development:**

- Creating responsive and user-friendly front-end interfaces using HTML, CSS, and JavaScript libraries.

- Ensuring cross-browser compatibility and optimal user experience.

4. **Database Management :**

- Designing and optimizing SQL databases for efficient data storage and retrieval.
- Developing database schemas, tables, and stored procedures.

5. **Back-end Development :**

- Building robust server-side applications using C# and the .NET Framework.
- Implementing RESTful APIs for seamless integration with external systems.

-

6. **Quality Assurance :**

Conducting unit testing and debugging to identify and resolve software defects.

- Writing and executing test cases to ensure code reliability and functionality.

7. **Code Reviews:**

Participating in code reviews to maintain coding standards and foster a collaborative development environment.

- Providing constructive feedback to peers to improve code quality.

8. **Security Implementation :**

Implementing security best practices, including authentication and authorization mechanisms.

- Ensuring data protection and application security against potential threats.

9. **Deployment:**

Assisting in the deployment of web applications to production servers.

Monitoring and troubleshooting issues during deployment to ensure smooth releases.

PROJECTS

Vehicle Management System (VMS):

A vehicle management system designed for administration team to provide vehicles upon employee request. The system automatically displays the available vehicle and driver details so that the admin team can easily fulfill the requestss.

Customer Management System:

Developed a comprehensive Customer Management System using ASP.NET MVC.

- Led cross-functional teams in defining project scope and requirements.
- Designed a user-friendly web interface and implemented advanced search and security features.
- Successfully delivered the project within the established timeline and budget.
