

# Das Mhasavekar

Full Stack .NET Developer | ASP.NET MVC | .NET Core | Web API | Angular | 2+ Years

✉️ [dasmhasavekar09@gmail.com](mailto:dasmhasavekar09@gmail.com) | 📞 +91-9767764610

## SUMMARY

Full Stack .NET Developer with 2+ years of experience in ASP.NET MVC, ASP.NET Core, C#, Web APIs, Entity Framework, SQL Server, and ADO.NET.

Skilled in building secure, scalable web applications, RESTful APIs, and database-driven systems.

Proficient in front-end (HTML5, CSS3, Bootstrap, JavaScript, jQuery, Angular) and back-end (LINQ, stored procedures, optimized queries) development.

## SKILLS

|                                 |                                                                                                                    |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------|
| <b>Frontend:</b>                | HTML5, CSS3, Bootstrap 5, JavaScript, jQuery, AJAX, Angular, Razor Views, Responsive Design                        |
| <b>Backend:</b>                 | C#, ASP.NET, ADO.NET, ASP.NET MVC, ASP.NET Core, .NET Framework, Entity Framework, LINQ, Web API, RESTful Services |
| <b>Database:</b>                | SQL Server, Stored Procedures, Joins, Indexes, Query Optimization, Database Design                                 |
| <b>Version Control:</b>         | Git, GitHub                                                                                                        |
| <b>Other Tools / Practices:</b> | Agile/Scrum, SDLC, Swagger, Debugging, IIS Deployment                                                              |

## WORK EXPERIENCE

|                                                 |                     |
|-------------------------------------------------|---------------------|
| <b>Sumeru Infotech Pvt. Ltd.</b>                | July 2024 – Present |
| Software Programmer – Full Stack .NET Developer |                     |
| <b>Sumeru Infotech Pvt. Ltd.</b>                | Nov 2023 – Apr 2024 |
| Trainee Software Programmer – Internship        |                     |

## RESPONSIBILITIES

- Implemented scalable ASP.NET MVC applications using C#, Razor Views, LINQ, Entity Framework, and ADO.NET for efficient data access and business logic.
- Integrated WCF services and RESTful Web APIs for seamless communication between distributed systems.
- Engineered responsive user interfaces using ASP.NET, Angular, JavaScript, jQuery, AJAX, Bootstrap, HTML5, and CSS3.
- Planned and optimized SQL Server databases including schemas, tables, stored procedures, views, triggers, indexes, and optimized queries.
- Applied OOP principles, Repository Pattern, Layered Architecture, LINQ, lambda expressions, and Entity Framework for clean and maintainable code.
- Implemented secure authentication and authorization mechanisms including Forms Authentication, Role-Based Authorization, and ASP.NET Identity.
- Developed Angular components, services, and modules with two-way data binding, Reactive/Template-driven forms, and client-side routing.
- Performed unit and integration testing, integrated Git/GitHub for version control, and deployed applications on IIS with environment setup and performance tuning.
- Collaborated in Agile/Scrum processes, participating in sprint planning, daily stand-up meetings, code reviews, and delivering project milestones.
- Documented and tested RESTful Web APIs using Swagger (OpenAPI) for clear API contracts, easier integration, and improved collaboration between frontend and backend teams.

## PROJECTS

---

### SSupportLink – Web-based Helpdesk System

Role: Team Member

Technologies Used: C#, ASP.NET MVC, Entity Framework, ADO.NET, SQL Server, Bootstrap, jQuery, AJAX, LINQ

- Managed the complete lifecycle of customer support tickets from assignment to resolution within a dedicated agent portal.
- Prioritized daily workflow using a real-time dashboard for New, Assigned, Due Soon, and Overdue tickets.
- Utilized an integrated chat module to communicate with customers, diagnose issues, and provide solutions.
- Maintained accurate ticket tracking and reporting throughout the resolution process.

### Edu Manage ERP – Trainer Module (Web-based Project)

Role: Team Member

Technologies Used: C#, ASP.NET MVC, Entity Framework, SQL Server, Bootstrap, jQuery, AJAX, LINQ

- Planned and executed the Trainer Module in a role-based ERP system for a training institute.
- Oversaw course structures (Course → Module → Section → Topic → Sessions) with syllabus uploads and duration tracking.
- Enhanced batch and group management with scheduling, lab allocations, and session planning.
- Built attendance tracking (batch-wise, group-wise, project-wise) with late/leave handling and reporting.
- Applied test management workflows: creation, assignment, conduction, evaluation, and performance tracking.
- Developed dashboards and reports for attendance, test results, trainee progress, and analytics.
- Supervised candidate lists, leave workflows, self-service (ESS), and demo scheduling for trainees.

### HomeEase - Society Management System (Standalone)

Role: Team Member

Technologies Used: C#, WinForms, ADO.NET, SQL Server

- Enhanced the Secretary Module to manage complaints, meetings, notices, facilities, and events.
- Oversaw visitor and parking management for secure and organized entry control.
- Expanded reporting for finances, facility usage, complaints, occupancy, and attendance with PDF/Excel export.
- Streamlined workflows to reduce manual paperwork, improve transparency, and boost resident satisfaction.
- Improved complaint resolution through efficient request tracking and monitoring.

## EDUCATION

---

### Master of Computer Science

Savitribai Phule Pune University (2024)

CGPA: 7.73/10

## ACKNOWLEDGEMENT

---

I hereby declare that all information provided in this curriculum vitae is accurate and true to the best of my knowledge. I take full responsibility for the correctness of the details mentioned herein.
