EDUCATION

Master's in CS

North Maharashtra University
CGPA: 9.88 | Graduated: 2022

Bachelor's in CS

North Maharashtra University
CGPA: 6.67 | Graduated: 2019

SKILLS

- **DevOps Tools:** Git, GitLab, Jenkins, Docker, Ansible,
- **Programming Languages:** Java, C#, Python JavaScript, HTML, CSS
- **Frameworks:** React, ASP.NET MVC, Bootstrap
- **Cloud Platforms:** AWS (EC2, S3)
- **Databases:** MySQL, MongoDB
- **Operating Systems:** Windows, Linux

COURSES

- **DevOps**
Naresh i Technologies
- **Core Java**
Radical Technologies, Pune
- **AWS: Zero To Hero**
Train With Shubham

LANGUAGES

- ENGLISH
- HINDI
- MARATHI

Results-driven Technical Support Engineer with a solid background in software development and cloud technologies. Experienced in supporting full-stack applications, automating deployment processes, and improving CI/CD workflows. Strong track record in managing GitLab-based projects and resolving release issues efficiently. Open to roles in DevOps or development that offer opportunities for growth and impact.

WORK EXPERIENCE

Technical Support Engineer

Peocit Software Solution Pvt. Ltd.

06-11-2023- Present

Project: K3one (Core Banking Solution)

Key Responsibilities:

- Managed GitLab repositories using efficient branching strategies to support team workflows.
- Automated CI/CD pipelines with GitLab CI to streamline build and deployment processes.
- Packaged and delivered stable releases to the QA team for validation and testing.
- Resolved GitLab issues including build failures, improving system reliability and uptime.
- Handled onboarding processes and GitLab project management across cross-functional teams.
- Diagnosed and fixed bugs in .NET applications, providing timely support to the core development team.
- Diagnosed and fixed critical UI and backend defects, including form validations and business logic errors.
- Developed end-to-end modules using ASP.NET MVC, C#, and MySQL, delivering high-performance solutions.

Junior Associate

ProSofos Inc.

06-12-2021 / 02-08-2022

- Built responsive UI components using React.js, with a focus on clean, modern design.
- Created reusable code to enhance maintainability and user experience.
- Collaborated with the team to meet design goals and deliver tasks on time.

DevOps Projects

Objective: Developed and deployed a ToDo web application using **GitLab CI/CD**, **Docker**, and **AWS EC2**

Key Achievements:

- Reduced deployment time by **40%** through end-to-end CI/CD automation.
- Achieved **95%** environment consistency using Docker for containerization.
- Ensured **99.9%** uptime via efficient deployment strategies on AWS EC2.
- Enhanced cloud deployment reliability and accelerated software delivery cycles.
