-

## PROJECTS

### Income Tax Automation (Professional Project)

- Maintained and enhanced a **VB.NET-based automation system** for Income Tax return filing. Added new forms and modules based on changing **Income Tax Department policies** and client-specific requirements.
- Worked on **data fetching automation** using browser scripting to retrieve financial details from the IT e-portal. Ensured secure and accurate handling of sensitive tax data with proper validations and logging.

### Messaging Digital (Professional Project)

- Integrated **WhatsApp Business API** to enable real-time and automated messaging functionality.
- Developed secure and optimized **MySQL database models** for handling user and message data.
- Built interactive **popups and UI enhancements** using HTML, CSS, and JavaScript for better user experience.

### Signer Digital (Professional Project)

- Designed and enhanced **UI components** using HTML, CSS, and JavaScript to improve usability.
- Implemented **popup dialogs** for seamless and intuitive user interactions.

### Blazor WhatsApp Theme Customization

- Developed and fully redesigned a WhatsApp-style chat UI using the Blazor framework, implementing a complete UI change with responsive layouts, dark/light modes, and interactive features.
- Fully redesigned the **user interface** to support **responsive layouts**, providing seamless performance across various screen sizes.

### WordPress Websites Developed:

- messaging.digital
- signer.digital
- taxpro.co.in
