Summary

Detail-oriented and results-driven Software Engineer with 2+ years of experience in developing, deploying, and maintaining scalable applications using C# and the .NET framework. Strong proficiency in .NET Core, ASP.NET MVC, HTML5, CSS3, JavaScript, SQL, and Azure cloud services. Experienced in using GitHub for version control, code collaboration, and pull request management, and Jira for Agile project tracking, sprint planning, and issue management. Adept at working in Agile environments, troubleshooting complex issues, and optimizing application performance. Passionate about delivering high-quality software and continuously improving technical skills.

Experience

Software Engineer - August, 2023 - Present

Procentis India Pvt. Ltd

- Developed and maintained multiple enterprise-level web applications using C#, ASP.NET MVC, .NET Core, and SQL Server, improving system performance by 30%.
- Built and deployed RESTful APIs and web services using ASP.NET Core and Web API, reducing integration times by 40%. Improved product recommendations and increased clients
- Designed and implemented a dynamic and responsive front-end using HTML5, CSS3, JavaScript, and jQuery, incorporating robust client-side functionality such as form validation, dynamic content rendering, and user interaction handling to ensure high-performance user interfaces.
- Worked in an Agile team, participating in daily standups, sprint planning, and code reviews to ensure project timelines and code quality.
- Utilized Entity Framework for ORM, improving data access performance by 25% and reducing development time by 80%.
- Wrote and optimized complex SQL queries and stored procedures, enhancing data retrieval efficiency by 20%.
- Used GitHub for source control, branch management, and pull-request-based code reviews to maintain code quality and best practices.
- Deployed applications to Azure environments, utilizing Azure DevOps for continuous integration and delivery (CI/CD).
- Investigation, design, and implement scalable applications for data identification, analysis, retrieval, and indexing.
- Software design and development while remaining concentrate on client needs.
- Cooperate diligently with other IT team members to plan, design, and develop smart solutions.
- Leading Documentation and Emails Module individually.

Professional Projects

- Experienced in the **Medical Insurance** domain through contributions to multiple live insurance projects.
- **EXPATPA EASY**
 - Designed and developed UI pages, data grids, and pop-ups as per client requirements using **ASP.NET MVC/Core** & Razor views.
 - Developed high-performance premiums and claims invoicing documentation using **iTextSharp, and NReco**.
 - Contributed to the development and delivery of email templates using the mail module.
 - Designed and developed a centralized style management panel. Enabled one-click application of standardized styling across 1,000+ project documents. Accessible only to Super Admin users.
 - Designed and implemented a currency conversion system based on multiple country currencies. Utilized scheduled backend jobs to run conversions at predefined intervals. Ensured accurate and timely currency rate updates across the application.

Technical Skills

- **Languages:** C#, SQL, JavaScript, HTML5, CSS3, Python, Java,
- **Frameworks & Technologies:** .NET, .NET Core, ASP.NET, MVC, Web API, Entity Framework, Flask, Eclipse, Stackify
- **Cloud Platforms:** Microsoft Azure, Azure DevOps
- **Databases:** MS-SQL Server, T-SQL, PL/SQL, MySQL
- **Tools:** Git, Visual Studio, Azure DevOps
- **Web Development:** HTML5, CSS3, JavaScript, jQuery, AJAX, React.js, Angular
- **Methodologies:** Agile (Scrum), Test-Driven Development (TDD)
- **Version Control:** Git, GitHub, SVN, TFS, Azure Repos
- **Agile Practices:** Agile, Scrum, Jira
- **ORM:** Entity Framework, EF Core, ADO.Net, LINQ
- **DevOps & CI/CD:** Jenkins, Batch Scripting, Inno Setup
- **Testing & Monitoring:** Postman
- **AI Tools:** ChatGPT, Gemini, Copilot, Blackbox

Skills & abilities

- Strong ability to analyze and troubleshoot complex issues in application development and deployment
- Capable of identifying bottlenecks, optimizing code, and improving performance
- Ability to develop creative solutions to challenging software engineering problems
- Familiarity with **debugging, profiling tools, and application monitoring** for issue resolution
- Working knowledge of **Agile/Scrum** development processes
- Participation in sprint planning, daily standups, and retrospectives
- Use of **Jira** for tracking and managing tasks

Soft Skills

- Adaptability
- Time Management
- Attention to Detail
- Teamwork
- Communication

Certifications

- Post Graduate Diploma in Advance Computing (C-DAC)

Languages

- English, Hindi and Marathi

Education

Centre for Development of Advanced Computing (C-DAC) Sept 2022 – March 2023

Post Graduate Diploma in Advance Computing (C-DAC)

B R Harne College Of Engineering | B E Electrical Engineering
