

Devesh Sushir

| .NET Developer | C# | ASP.NET | ASP.NET MVC | NET Core | SQL Server | JavaScript |

+918177935444 ◇ deveshsushir83@gmail.com ◇ Pune, Maharashtra, India

SUMMARY

- Experienced .NET Developer with 3.5 years of experience in designing, developing, and maintaining scalable
- web applications using C#, **ASP.NET**, **ASP.NET MVC**, **.NET Core**, and **Web API**. Skilled in building dynamic
- front-end interfaces using JavaScript, jQuery, AJAX, and Angular, and in developing robust backend solutions using
- Entity Framework, **LINQ**, and **ADO.NET**. Proficient in **SQL Server** for database design and optimization. Adept at
- integrating full-stack modules, writing clean code, debugging, and deploying through **Git** and **IIS**. Strong communicator
- with experience working in Agile teams to deliver quality and performance-driven software products.

SKILLS

- **Programming & Frameworks:** C#, ASP.NET, ASP.NET MVC, **.NET Core**, Web API, **Entity Framework**, **LINQ**, **ADO.NET**
- **Frontend Technologies:** JavaScript, **jQuery**, **AJAX**, **Angular**, HTML, CSS
- **Database:** SQL Server (Queries, Stored Procedures, Triggers, Views, Optimization, Indexing)
- **Tools & Platforms:** Visual Studio, **Git**, **IIS**, Postman, SSMS
- **Practices:** RESTful API Development, Agile/Scrum, **SDLC**, Debugging, Unit Testing, Requirement Analysis, Deployment

WORK EXPERIENCE

Associate software engineer

Vertisystem Global Pvt. Ltd. Indore

Jun '23 — Present

- Designed and developed enterprise-level **financial claim and reporting modules** using **ASP.NET MVC**, **.NET Core**, and **C#**, improving process automation by 25%.
- Developed and consumed **RESTful Web APIs** using **Entity Framework**, **LINQ**, and **ADO.NET** to streamline data exchange between application layers and **SQL Server**.
- Integrated **Angular**, **JavaScript**, **jQuery**, and **AJAX** to enhance front-end interactivity and reduce page load times.
- Optimized backend performance and implemented caching mechanisms for faster API response times.
- Collaborated with QA teams in **Agile sprints** for testing, bug-fixing, and feature rollout.
- Worked with **Azure DevOps** to manage assigned user stories, CI/CD pipelines, and sprint tracking for timely delivery.
- Used **Git** for version control and **IIS** for deployment of staging and production builds.

Software Developer

anAccord Web World Pvt. Ltd. Nashik

Jul'22—May'23

- Designed and developed **ERP modules** (Finance, HR, Inventory) using **ASP.NET**, **.NET Core**, and **C#**, enabling better departmental data visibility.
- Built **Web APIs** with **Entity Framework**, **LINQ**, and **ADO.NET**, improving data retrieval performance and reducing manual data handling.
- Created interactive user interfaces with **Angular**, **JavaScript**, **jQuery**, and **AJAX**, resulting in smoother user experiences.
- Performed database optimization in **SQL Server** using stored procedures, triggers, and indexing.
- Collaborated closely with cross-functional teams for integration testing, bug fixes, and client feedback implementation.
- Upgraded legacy modules to **.NET Core** for improved maintainability and scalability.

PROJECTS

Hilton Grand Vacation – Vertisystem Global Pvt. Ltd.

- Developed and maintained key modules for reservation and membership management using **ASP.NET MVC**, **.NET Core**, **Web API**, and **C#**.
- Implemented business logic and data layers using Entity Framework, **LINQ**, and **ADO.NET** for seamless **SQL Server** integration.
- Created RESTful APIs for data synchronization between property systems and internal dashboards.
- Designed front-end components using **Angular**, **JavaScript**, **jQuery**, and **AJAX**, enhancing user experience and load efficiency.
- Deployed updates and monitored system stability via **IIS** and version control in **Git**.

ERP Modules for Manufacturing & Finance – anAccord Web World Pvt. Ltd

- Designed and developed ERP features for Finance, HR, and Inventory modules using **ASP.NET**, **.NET Core**, and **C#**.
- Built backend architecture using Entity Framework, **LINQ**, and **ADO.NET** to automate data entry and report generation.
- Developed **Web APIs** for secure and efficient communication between business modules.
- Integrated **Angular**, **JavaScript**, **jQuery**, and **AJAX** to improve interactivity and performance of dashboard screens.
- Enhanced query performance and **API** response time with optimized **SQL stored procedures**.

CERTIFICATIONS & EDUCATION

- SQL Certificate, Udemy
- EXCLAR Business communication training,
- Amravati University, M. Tech (2020)
