

Mukesh Shendre

Software Developer

+91 7397982164 | mukeshshendre13@gmail.com

Professional Summary

.NET Developer with around 2.4+ years of hands-on experience in designing, developing, and maintaining web applications. Proficient in backend logic implementation, frontend UI development, and database management. Strong understanding of Object-Oriented Programming (OOP), 3-Tier architecture, and the Software Development Life Cycle (SDLC). Committed to writing clean, efficient, and maintainable code while delivering scalable, high-quality solutions.

Technical Skills

Backend: C#, ASP.NET Web Form, MVC, ADO.NET, ASP.NET Core, Entity Framework, Web API, Jwt

Frontend: HTML5, CSS3, Bootstrap 5, JavaScript, jQuery, AJAX, Angular

Database: SQL Server - Stored Procedures, Triggers, Views

Tools/IDE: Visual Studio, VS Code, Git

Core Concepts: OOP, 3-Tier Architecture, SDLC, Debugging

Soft Skills: Communication, Analytical Thinking, Team Collaboration, Adaptability

Work Experience

Gaya Software and Technology

Software Developer

Oct 2023 – Present

Roles & Responsibilities

- Actively participated in end-to-end **SDLC activities** such as requirement gathering, system design, development, testing, deployment, and post-production support.
- Developed and maintained MVC-based web applications using C#, ADO.NET, and SQL Server, following industry best practices.
- Designed responsive and user-friendly UIs using HTML5, CSS3, Bootstrap, JavaScript, jQuery, and Angular.
- Created and optimized stored procedures and SQL queries, improving performance through indexing and query tuning.
- Integrated RESTful Web APIs to enable seamless communication between backend and frontend layers.
- Implemented 3-Tier architecture to improve application scalability, maintainability, and separation of concerns.
- Performed debugging, exception handling, and performance optimization to ensure stable application behaviour.
- Implemented client-side and server-side validations using jQuery and Data Annotations to ensure data accuracy.
- Used AJAX for asynchronous operations, improving page responsiveness and overall user experience.
- Collaborated with team members and QA during development, testing, and deployment phases to deliver quality solutions on time.

Projects

1. HR Horizon – HRMS

Role: Team Member

Technologies: ASP.NET Core, ASP.NET MVC, C#, Entity Framework core (Database-First), SQL Server, Angular, Bootstrap, High charts

- Worked on a web-based HR Management System focusing on core HR operations.
- Developed the HR module to manage employee records and organizational data.
- Implemented the Recruitment sub-module for adding and managing candidates and company details.
- Used Entity Framework (Database-First approach) for data access and ORM mapping.
- Designed interactive dashboards to visualize recruitment and HR metrics using High charts.
- Implemented role-based access control for Admin and HR users.

2. GST Society 360

Role: Team Member

Technologies: ASP.NET MVC, C#, ADO.NET, SQL Server, Bootstrap, High charts

- Worked on a housing society management system focusing on accounting operations.
- Developed the Accountant module to manage bank credit and debit transactions.
- Implemented bank-wise transaction tracking, opening balance, and transaction history.
- Designed reports and dashboards for financial analysis using High charts.
- Developed notice management functionality to publish notices for society members.
- Implemented role-based access for Admin, Accountant, and Society Members.

3. NextGen - Visitor Management System

Role: Team Member

Technologies: ADO.NET, WinForms, SQL Server

- Developed a desktop-based Visitor Management System using WinForms and ADO.NET to manage visitor entry and exit.
- Designed the Receptionist module to register visitors, generate visitor passes, and track visit details in real time.
- Implemented the Event Management module to handle event-wise visitors, schedule events, and monitor event details using a calendar view.
- Used SQL Server with ADO.NET for secure data storage, efficient data retrieval, and reporting of visitor and event information.

Education

Bachelor of Engineering (RTMNU)

CGPA(7.74)

2024
