PROFESSIONAL SUMMARIES

Full-stack developer with 1+ year of experience in building scalable web applications using **.NET Core, ASP.NET Web API, Angular, React, Node.js, MongoDB, and SQL Server**. Skilled in **REST APIs, JWT authentication, role-based access, responsive UI, and clean/onion architecture**. Hands-on experience with **MERN & MEAN stacks, AWS (S3, DynamoDB), CI/CD pipelines, and Git/GitHub**. Strong focus on performance, security, and production-ready solutions.

TECHNICAL SKILLS

Languages: C#, Java(Core), SQL, JavaScript(ES6+)
Backend: ASP.NET Core, Web API, Dapper, Entity Framework Core
Frontend: Angular, React.js, HTML5, CSS3, Bootstrap, SCSS
Database: SQL Server, MongoDB, PostgreSQL
Tools: Git, GitHub, Visual Studio Code, SQL Server, VS Code, Insomnia
Architecture: Clean Architecture, Onion Architecture, REST APIs, JWT, Microservices

WORK EXPERIENCE

Software Engineer Jan '25 — Present
Shiwansh Solution Mohali, India

- Developed and maintained **RESTful APIs** using **ASP.NET Core Web API** with **JWT authentication** and **role-based authorization**.
- Built **responsive and reusable UI components** using **Angular, Bootstrap, HTML, and CSS**.
- Implemented **server-side data access** with **Dapper and SQL Server**, writing optimized queries and stored procedures.
- Designed and integrated **secure login, password reset, and authorization flows** to enhance application security.
- Collaborated with **project managers and senior developers** in an **agile environment**, leveraging **AWS S3 and DynamoDB** for application storage.

PROJECTS

Employee Management System, Shiwansh Solution [Link](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, Redux, Bootstrap
- Worked on the development of an internal **Employee Management System** used to manage **job applications, internship inquiries, HR requests, blogs, payments, and hiring data**.
- Built **dashboard screens** that display key information such as **applied jobs, internship requests, hire inquiries, and total candidates**.
- Used **Redux** on the client side to manage application state and handle data coming from REST APIs smoothly.
- Implemented features that allow **HR teams to track candidates, schedule follow-ups, and manage interview-related activities**.
- Implemented **JWT-based authentication** and **role-based access** to ensure secure access for different users.

Job & Internship Portal - ShiwanshIn, Shiwansh Solution [Link](#)

- **Tech Stack:** ASP.NET Core, Web API, Angular, SQL Server, Dapper, Bootstrap
- Contributed to the development of a **job and internship portal** where users can **apply for opportunities and connect with mentors for career guidance**, similar to platforms like Internshala or Unstop.
- Added a **multi-role system**, including **Super Admin, Admin, User, and Mentor**, based on application requirements.
- Worked on **authentication and authorization features** such as **JWT login, email verification, and password recovery**.
- Developed **admin dashboards** to manage **job postings, user applications, mentors, and system data**.
- Created **RESTful APIs** using **Onion Architecture** and handled database operations with **Dapper and stored procedures** for better performance.

EDUCATION

Bachelor of Technology in Computer Science Aug '21 — Jun '25
Arya College of Engineering And IT | GPA: 9.09 Jaipur, India

Intermediate, Mahatma Inter College (GPA: 82%) 2019 — 2021
Azamgarh, India
